COAL MINES TO OPEN AT HARDING'S ORDER

"RETURN TO YOUR MINE PROPERTIES AND RESUME OPERATIONS," SAYS PRESIDENT IN EFFORT TO BRING END TO STRIKE

Bituminous Coal Men Are Practically Assured Of Assistance Of Federal And State Forces By President Harding In Statement Made At Conference Following Acceptance Of Plan.

PENNSYLVANIA OPERATORS DISSENT

WASHINGTON, D. C., July 18.—President Harding, as the Government's next move in the present crisis, will call upon the Governors of all the States to take immediate steps to protect the mining of coal and movement of trains, it was learned officially here today. The White House announced the President would issue an appeal to the Governors before night. Backing up this appeal will be a warning that if the States cannot cope with the situation the Federal Government will be forced to intervene and use the United States army. This course of action was decided upon by the President and his Cabinet at their meeting today. It was denied that the use of marines on trains had been decided upon.

WASHINGTON, D. C., July 18.—President Harding and his Cabinet met as a council of war today determined to force the production of coal, in the face of a strike of 600,000 miners and the refusal of their leaders and the operators to submit their differences to arbitration. Keeping in mind the battle at Herrin, Illinois, and the fight in West Virginia yesterday, the President and his Cabinet discussed the advisability of placing Federal troops on guard at all mines accepting his invitation to re-open. The fear is openly expressed here that the nation faces one of the greatest industrial wars in its history. The President is planning on using State and Federal military forces to bring about coal production. If the State forces cannot maintain order at the mines Federal troops will be used. The President emphasized the fact that the overriding need is the production of coal and that this must be brought about, no matter how it will affect either the operators or the striking miners.

Washington, July 17.—President Harding today invited bituminous mine operators, who notified him at the White House of their acceptance of arbitration in the coal strike to "return to your mine properties and resume operations."

The President, in a statement issued after the delegation of bituminous operators had left the White House (Continued on Page 6).

BILL ROSS' WALKING LAWN MOWER GETS HIMSELF IN WRONG

Bill Ross was entered in the Clearfield County Courts yesterday by Pentz & Pentz, representing Peter Molando, of DuBois, against Matthew Baranowski. In this suit the plaintiff alleges that Baranowski is the owner of a vicious horse which he allows to run at large and crop the grass off the streets in front of the Courier office in DuBois and the commons out in Sandy township. That on June 4th last the horse was pasturing on a commons in Sandy township, when John, the six year old son of the prosecutor happened along on the way across the lot to visit his grandfather. The horse attacked the child, knocking him down and then kicked and trampled him. The lad suffered a fractured skull and other painful injuries before the vicious animal was driven away from his victim.

It was found necessary to remove a part of the child's skull and the father brings this suit to recover for the expense he was put to by reason of his boy's injuries.

NEW YORK FIREMAN KILLED AT FIRE

New York, N. Y., July 18.—Fire Lieutenant Eugene Shopmeyer was killed by a falling cornice and from fifteen to twenty other persons, including several women, were injured in a spectacular fire in the six story building of the Manhattan Transit Company. Exploding chemicals spread the flames to other buildings, and the police ordered all occupants of neighboring buildings to vacate until the fire was brought under control.

ELOPING PREACHER GETS YEAR IN JAIL

Xenia, Ohio, July 18.—Rev. W. W. Culp, of Spring Valley, Ohio, who eloped with his wife's pretty summer boarder, Miss Esther Hughes, was fined \$500 and costs and sentenced to one year in the Dayton work house by Judge Marshall here today. Culp was charged with abandoning his wife and nine children to flee with Miss Hughes, his affinity. The couple were arrested near Port Huron, Michigan, late last week. Culp wept bitterly as Judge Marshall passed sentence on him.

Esther Hughes, 19, church organist, and Rev. Walter Culp, minister, were found peeling potatoes in Port Huron, Mich., and held for authorities from Spring Valley, O., where Culp has a wife and nine children.

COUNCIL INSISTS THAT SIDEWALKS MUST BE BUILT

Sidewalk Building Campaign Occupies Attention of Borough Solons At Last Night's Meet.

SPEEDBOYS ARE HIT

Ten members of Council and Burgess Kittelberger participated in last night's meeting of Town Council which among other things added a new chapter to the sidewalk building campaign begun several weeks ago. Report was made at this meeting that the Poole walk at Corner of Turnpike avenue and McBride street had been built at the direction of Council and work started on the Anderson walk on East Locust street. Notices to build several other walks in different sections of town expire during this week and the street crews were directed to build these as fast as the notices expire, and where the property owner has failed to comply. The Ordinance under which these walks are being built provides for a twenty per cent penalty for failure to comply with the notice to build.

Want More Walks Built
Notices to build walks were ordered served on the following property owners: Ashley Rishell, Forest Livingston Harry Henchberger, Ralph Pearce Clearfield Textile Co., and Charles Meagher on McBride street, and Mr. Albert Derrjck and Mrs. Albert Derrjck (Continued on Page 7).

NEW YORK POLICE IN BIG BATTLE WITH GUNMEN GANG

New York, July 18.—A desperate hand to hand battle on the narrow running board of a swaying taxi ended when an alleged gunman was mortally wounded by a policeman and two members of a Harlem gang were shot. With sawed off shotguns the bandits gave battle to three policemen up and down Harlem streets until two of them were killed. The rest scattered one leaping to the running board of a passing taxi and holding a revolver to the driver's ear. The shots awakened frightened citizens and a crowd was soon pursuing the fleeing yegg. By twisting and turning the taxi was eluding pursuers behind when a policeman on duty ahead caught a glimpse of the revolver barrel and leaped onto the running board where he engaged in a close range battle with the bandit and finally succeeded in inflicting a fatal wound.

COYLE-RAPSEY SHOP ROBBED OF TOOLS AND ACCESSORIES

The Coyle-Rapsey workshop located in the old Harder garage building in rear of their Market street salesroom was broken into and robbed of about two hundred dollars worth of tools and automobile accessories during last night.

The robbery was discovered by Doc Cramer this morning when he went to open the shop for business. The police and Detective Eppers are working on the case.

In addition to the haul of tools, etc the thieves also got away with some of Doc Cramer's personal effects. "Doc" thinks there might be a woman mixed up in it as a picture of one of his girls which he kept in a frame over his work bench is missing together with a letter or two he had recently received from her and had placed behind the picture for ready reference.

NEW EVIDENCE IS FOUND FAVORABLE TO MURDER SUSPECT

Los Angeles, Cal., July 18.—New evidence designed to free Mrs. Clara Phillips charged with beating Mrs. Albert Meadows to death with a hammer was planned today by her counsel. The defense in a formal statement today said: "All that is possible for us to say at this time is that the circumstances surrounding the death of Mrs. Meadows reported by the press have not been stated in full, despite the apparently convincing story which has been related."

"OLD NICK" LENINE IS KILLED AGAIN

Copenhagen, July 18.—Nicolai Lenine was murdered while enroute to a Caucasian watering place, according to a despatch received here today from a Riga correspondent of the Svenska Dagbladet. The report which lacked confirmation stated that poison was administered to Lenine on the train and his body hurled into the river Don while the train was crossing a bridge.

London, England, July 18.—The Russian trade delegation today discredited the rumor that Lenine had been murdered.

INSURGENT IRISH AGAIN ON THE RUN

Dublin, Ireland, July 18.—Insurgents are in full flight from Klonmel their party headquarters and stronghold in the South, according to word received here today. It was reported that 2000 rebels had been captured.

STATE SCHOOL BUILDING PROGRAM IS HEAVIEST IN HISTORY—502 BUILDINGS

Harrisburg, July 17.—The heaviest school building program in the history of the state is now under way, with plans for 502 school building operations submitted to the State Department of Public Instruction during the year, according to information on file in the department here.

The program involves the expenditure of over \$20,000,000 by the school districts and it is being added to weekly by submission of additional plans for the study of the Bureau of School Buildings. The 397 building situations on file at the present time indicate a building program that extends into almost every county in the state.

Since July 1, 1914, the State Department of Public Instruction has acted in an advisory capacity and examined plans and specifications on 1865 building projects calling for the expenditure of \$112,154,414 for school buildings in the State by August 1st.

It is estimated that the number of projects will be increased to 2125 and the cost of buildings to \$50,288,235. Lancaster County is just starting a large building program. Cambria County has 39 new school buildings going up this year and there are extensive operations in a number of western counties as well as in Luzerne and Lackawanna Counties.

Many plans for large school buildings now before the Department are being rechecked and revisions made which will effect a savings of thousands of dollars to the school districts. One city in Western Pennsylvania received bids on an elementary school building, which ran over \$300,000, while the recasting of the plan by the department's experts will reduce the cost of this one building over \$100,000 and give an additional auditorium and gymnasium.

Studies of plans made by the experts (Continued on Page 2).

JUDGE CORBETT SETS ASIDE ACTION OF PUNXSU JUSTICE

Holds That Flying Over Posted Lands Is Not 'Trespassing,' Accord To Penna. Statutes.

FLYERS NOW SUE

Flying over land posted against trespassers does not constitute a trespass, at least not under the act of 1905, according to Judge Charles Corbett who Monday morning reversed the decision of Justice of the Peace C. C. Rowan, of this city, who Friday last fined Harold O. Nevin and Leon B. Smith, aviators \$1 each for trespass, on information made by O. P. Grube, of near town.

In reversing "Squire Rowan's decision Judge Corbett placed the costs of the initial hearing and appeal upon Mr. Grube. The costs amount to about \$100. In addition Messrs. Nevin and Smith this morning brought suit against Mr. Grube for civil damages in trespass as a result of their arrest. Frances Cole (Daredevil Hank) arrested in company with Nevin and Smith, but discharged by "Squire Rowan, instituted a similar suit Saturday morning. Each suit names \$5,000 as the amount of alleged damage suffered.

The testimony offered this morning was to the effect that Nevin had started his machine from the Barger stock farm adjoining the O. P. Grube farm and flew over the Grube farm at a height of about 50 feet for a distance and then rose to a height of about 350 feet.

In rendering his decision Judge Corbett said that there was nothing in the Act of 1905 on which a conviction for "air trespass" might be secured, that it only contemplated the punishment of persons who trespassed upon the ground on posted property.

The case is to be carried to the appellate court, according to W. B. Adams, attorney for Mr. Grube. Mr. Adams stated this morning that Mr. Grube has started the proceedings purely to ascertain the law in the case and the rights of landowners in relation to airplanes and other vehicles of the air. Mr. Adams is of the belief that Pennsylvania will soon enact legislation governing the height at which airplanes, etc., must fly and he believes that this case will be largely instrumental in bringing about (Continued on Page 2).

ROUND TWO IS WON BY HEAVY WEIGHT; BOTH LOSE THIRD

The second round in the "Battle of Second street" was pulled off before "Squire F. G. Chorpennin Monday afternoon and resulted in a verdict for the defendant, Mrs. Wilbur Antes, while the prosecutrix, Mrs. William Wilson, was directed to pay the costs.

After hearing the ten or a dozen witnesses the "Squire decided that the charges over which the battle occurred were deborned by the statute of limitations and there was nothing to do but decide as he did. Both sides were represented by Counsel and it was a real legal battle.

Round Three
Both "Batters" appeared before Burgess Kittelberger at his office in the Borough building last evening at 7 o'clock and both took the "count of seven." That is to say the Mayor fined each woman \$7.00 for violating the Borough Ordinance against fighting. Thus once more does woman become the equal of man.

Mr. and Mrs. John Swartzle, Mr. and Mrs. Herman Roessner, Joseph Roessner and Miss Mabel Kileoyne motored to Pete Brown's for dinner Sunday.

LABOR BOARD RESUMES NEGOTIATIONS WITH UNION HEADS AND RAIL EXECUTIVES

CHICAGO, Illinois, July 18.—A new undercurrent of peace set in towards settlement of the railroad strike today. The latest peace move was clothed in secrecy. Sponsored by members of the Rail Labor Board, it was understood a new proposal was offered to shop craft laborers. The plan proposed the immediate return of the strikers to work and the re-opening of the wage scale question by the Railroad Labor Board. Previous peace moves were blocked by the refusal of the shopmen to return to work pending adjustment of the difficulties. The new proposition also involves seniority rights, elimination of contract work by the roads and the creation of adjustment boards. Labor Board members yesterday declared they had planned no further peace moves. A few hours later they were again in conference with union leaders and rail executives. Great significance was attached to the re-opening of negotiations.

PLAN FOR ENDING RAIL STRIKE TO BE DISCUSSED AT CABINET MEETING TODAY

WASHINGTON, D. C., July 18.—A plan for ending the rail strike may be introduced at today's Cabinet meeting. Because for the present President Harding desires that all efforts to end the shopmen's walk-out be carried out by the Railroad Labor Board, it is probable that the recommendations of his Cabinet will be sent to the Chicago agency. A report was received by the War Department of conditions at Denton, Texas, and it appeared probable that there would not be an immediate despatch of troops. Definite policies regarding the sending of troops to points where trains are being tied up probably will be framed by the Cabinet.

BUT FOUR KNOWN DEAD FOLLOWING BIG BATTLE IN WEST VIRGINIA COAL FIELDS

WELLSBURG, West Virginia, July 18.—With 43 prisoners in custody, three in Wheeling hospitals, 15 in the Ohio county jail there and 25 in jail here, deputy sheriffs armed with 200 "John Doe" warrants charging murder, securing the country as far as the Pennsylvania border, and a large force of state police and deputies guarding the striking miners' tent colony at Cliftonville, where a battle between a sheriff's force and a large crowd of men yesterday resulted in the deaths of at least four men and the wounding of others, the situation in Brooke county late last night was tense.

THE KNOWN DEAD: SHERIFF H. H. DUVAL, Wellsburg. FRANCIS MILICH, Monessen, Pa. CROOK.

AN UNIDENTIFIED MAN.

The jail here was under guard of 15 deputies, headed by the new sheriff, Thomas Duval, whose father was killed in yesterday morning's fight.

The last prisoner brought in, with an arm in a sling, was said by the officers who brought him here to be the man who killed the sheriff. He was being questioned rigorously at last reports.

The people of the town are restless, incensed that men from outside the state would come into their section and commit outrages against their fellowmen, as the attacking force was said to have done.

Out at the Clifton mine, state troopers under command of Captain White, armed with automatic rifles, were on guard and at the tent colony not far distant. The tents contain mostly women and children, most of the miners having fled after this morning's battle. The troopers are prepared to arrest every man who returns to the colony.

ALL FOREIGNERS.

All the prisoners are foreigners who cannot, or pretend they cannot, speak English.

The fight was on the lips of everyone on the streets, and last night everyone in the town seemed to be on the streets. The affair was discussed from the probable identity of the American who led the onslaught and said "Come on, boys, let's go," to the death of the sheriff.

Several thousand shots were fired during the 40-minute battle and the defenders ran out of rifle ammunition, being compelled to fire at the miners, who were some 700 yards up the hills, with short-range shotguns. The miners seemed to have an unlimited supply of steel-nosed bullets and some of the snipers were expert marksmen.

Cliftonville, W. Va., July 18.—Terrors of another Herrin kept deputy sheriffs on picket duty here today following the clash of yesterday in which Sheriff H. H. Duval was killed. Bands of miners, embittered by the death of comrades yesterday, were reported gathering in the wooded hills around Cliftonville. Machine guns were trained on the roads down which an attack might come. The room where the coroner held his inquest was surrounded by armed men, grim faced and prepared for trouble. The first threat of renewed warfare on the part of the embittered miners came from the hills near Cliftonville, but the State Police swept up the hill and charged through an orchard driving the miners back. Truck loads of police scoured Avella, where miners who fled after the battle of yesterday were reported to be gathering. State Police routed twenty five men from the hills near Cliftonville last night, the men fleeing in the darkness.

Capper Defends Direct Primary Against Harding's Criticism

BY HARRY B. HUNT

Washington, July 15.—Extension of the primary law rather than its repeal, must be secured if popular government is to be perpetuated, says Senator Arthur Capper, Republican of Kansas, head of the farm bloc and recognized as a national progressive leader.

Evidence of a careful, systematic propaganda to undermine public confidence in state primary laws with a view to bringing about their repeal and a return to the selection of candidates by party conventions is seen under the recent criticism of primaries by President Harding, Secretary of War Weeks and Senator Watson, of Indiana.

"I cannot go along with the President, Weeks and Watson," Capper declares. "Instead of abolishing or limiting the primary, it must be extended."

"I hope to see the day when nominations for president will be by popular primary. When that day comes we shall be getting on toward a really popular government. The people must have more voice, not less voice in the government and in the selection of men who make and administer the laws."

National Committeemen first. "One of the first steps in extending the primary is the selection of national committeemen by popular vote. That would give the rank and file of the parties a voice. It has none now."

"Of course the reason for the dissatisfaction of 'party leaders' with the primaries is not hard to find. Results of recent primary elections in which the people have rejected 'organization candidates' and nominated people of their own choice, has upset them."

"They blame the system. Yet the fact that the primaries gave the voters a chance to name their own candidate instead of having a handpicked organization candidate forced on them is the best possible endorsement of the primary principle."

"If the people are not to have a voice in the nomination of their candidates for office, why should they have a voice in their election?"

IDEAL SQUAB FARM NOT CONDUCTED IN IDEAL WAY, CHARGE

Pittsburgh, Pa., July 18. Charged with using the mails to defraud Andrew L. Heppler, aged 46, and his wife, Mrs. Anna Heppler, both officers in the Ideal Squab Company, of Butler, Pa., waived hearing for court before a United States Commissioner here today and each gave \$5000 bail. Heppler, Vice President and General Manager of the company and his wife Secretary-Treasurer, were alleged to have used the mails in a scheme to defraud by sending prospectus to purchasers of stock in the company and that they dispensed more than the amount of capital stock authorized by the charter in the operation of the company.

AUTOIST PAINFULLY HURT

While returning from a drive Sunday night A. M. Boalich was thrown from his car to the road and received some very painful and some what serious cuts about the face, head, leg and arms. The family had gone to spend the evening with Mrs. Boalich's father and mother at Blue Bell and starting home at about 10 o'clock. Just before starting down the hill into Woodland their lights went bad causing a sudden stop. The injured man was rushed to the office of Dr. Shively at Woodland where his painful injuries were successfully and skillfully dressed and at this writing is resting easier.

SENATOR ARTHUR CAPPER

WHY OLD GUARD HITS DIRECT PRIMARY

By NEA Service.

Washington, July 15.—Just how the party organization feels its hold slipping on senators and representatives because of the operation of popular primary is described by Senator Jim Watson of Indiana, one of the Old Guard engineers of the G. O. P. juggernaut.

This lack of control, says Watson, is back of the desire in party organization circles for the repeal of primary laws and a return to the old convention system where the organization ruled.

"Under the primary system," says Watson, "senators come here with an individual mandate. They do not come here feeling they are under great obligations to the party, because each individual has gone out as an individual and won his nomination and election."

"So he does not come here imbued with the idea of team work, as used to be the case when party obligations sat more heavily upon the public men than they do now."

HORSE SHOE PITCHING CHAMP IS COMING

Lloyd Johnson, of Grampian, champion horseshoe pitcher, of the Good-year Rubber Co. at Akron, will come to Clearfield Wednesday evening to engage in a match game with Jay, Day and as a special attraction early in the morning the West Side Courts and will no doubt attract a crowd.

Harding's statement to the coal operators was as follows:

"Gentlemen:

"I have your decision. I would not be frank if I did not confess a disappointment in your lack of unanimity. To the large majority of you who have pledged a willingness to resume activities under the government's proposal, I must express my own and the public's gratitude."

"We have now reached a point, owing to the refusal of mine workers and the minority of your operators to accept the proposed arbitration where the good offices of the government in seeking voluntary adjustment of the dispute between mine operators and mine workers are without avail."

"I cannot permit you to depart without reminding you that coal is a national necessity, the ample supply of which is essential likewise to common welfare and interstate commerce."

"The freedom of action on the part of workers and on the part of employers does not measure in importance with that of public welfare and national security. I therefore invite you to return to your mine properties and resume operation."

"If the primary is eliminated so the voter has no voice in the selection of his party's nominee, he has no voice in the election."

Fair for Poor Man

"It may be true there are times when a poor man is at a disadvantage under the primary system. But the nomination of Colonel Smith Brookhart in Iowa, as a candidate for United States Senator shows a man can be nominated without spending large sums of money—if he has the people's confidence and they want him."

"Secretary Weeks, it seems to me, out-Bolsheviked the Bolsheviks in declaring that popular government is a failure."

"With all the unrest and discontent now current this is a poor time to take from the people their primaries. Rather, we should be studying how to extend them."

"Not less popular government but more popular government is what we need."

HARDING'S STATEMENT TO COAL OPERATORS

Washington, July 17.—President Harding's statement to the coal operators was as follows:

"Gentlemen:

"I have your decision. I would not be frank if I did not confess a disappointment in your lack of unanimity. To the large majority of you who have pledged a willingness to resume activities under the government's proposal, I must express my own and the public's gratitude."

"We have now reached a point, owing to the refusal of mine workers and the minority of your operators to accept the proposed arbitration where the good offices of the government in seeking voluntary adjustment of the dispute between mine operators and mine workers are without avail."

"I cannot permit you to depart without reminding you that coal is a national necessity, the ample supply of which is essential likewise to common welfare and interstate commerce."

"The freedom of action on the part of workers and on the part of employers does not measure in importance with that of public welfare and national security. I therefore invite you to return to your mine properties and resume operation."

JUDGE CORBETT

(Continued from Page One) ..

such legislation.

Brookville, July 17.—Leon M. "Windy" Smith and Harold Nevin, aviators, today filed suits for \$5,000 each against O. P. Grube, a Punxsutawney farmer, following the decision handed down by Charles J. Corbett in court here this morning, which set aside a fine of \$1 inflicted upon the birdmen by Squire C. C. Rowan, of Punxsutawney, for alleged trespass,

and placing the costs of that action upon O. P. Grube.

Francis (Daredevil Hank) Cole who had also been arrested upon a warrant issued by Grube, but subsequently discharged instituted similar proceeding against Grube on Saturday.

GIVE YOUR

KIDDIES PLENTY OF SAFE MILK

This is the season of the year when your kiddies are as busy as can be playing for all they're worth. They're actually too busy to take the time to eat regularly. So here is where milk comes in. You can let them have it at their scanty meals and, better yet, when they come in and say they are so starved they can't wait another minute.

But be sure that the milk you give them is a safe milk! If you're a regular subscriber to one of our routes, you may rest assured that the milk your kiddies are getting is the purest and contains the highest amount of nutrition that any milk possibly can.

WAR WORKER IS OHIO MAYOR

Miss Amy Kaukonen, Guardian of Lit-
tle Buckeye City, Active in
Auxiliary Affairs.

Ohio not only boasts that she has
produced many more than her share
of the nation's chief executives,
but she also points with pride to
the fact that her little city of
Fairport has one of the most at-
tractive and capable "lady may-
ors" in the country. Miss Amy
Kaukonen, who during the war
was a member of
the volunteer medical service corps of
the United States army, has given en-
tire satisfaction as mayor of Fair-
port.

Mayor Kaukonen finds time from
her official duties to take part in the
affairs of the American Legion Aux-
iliary of her city. That she is a
staunch supporter of the Legion is evi-
denced by her statement: "It is dis-
tinctly an American organization, in
which politics and selfish interest have
no place. Its cornerstone is Ameri-
canism, its objects liberty, fran-
chise and service. Its principles are
as broad as the continent upon which
falls the shadow of our flag."

CARE OF FRENCH WAR ORPHAN

Argonne Association's Plan May Be
Used for Unfortunates in
United States.

A plan for the care and training of
French war orphans, worked out by
the Argonne association, an organiza-
tion formed as a permanent memorial
to the Americans who fought in
France, is said to be functioning so
satisfactorily that a similar organiza-
tion may be formed for the care of
orphans in the United States.

The Argonne association was formed
in 1918 by a group of Americans in-
terested in French orphans. It has as
its motto: "To provide for the child
who has no parents, a home and a
family life; to secure him his birth-
right of health; to educate him and
train him to earn a livelihood; to de-
velop his character that he may be-
come a useful and an upright citizen
and to do these things so well and so
economically that others shall follow
this example—is the aim of the Ar-
gonne association."

The orphans cared for under the as-
sociation's plan are placed in private
homes in a community where they are
readily wanted. They are not "farmed
out." There is a community school
playground and vocational training
center where the children are daily
brought together to get their mental
and physical development. There are
three such centers in France where
the orphans are given three distinct
stages of training.

HE WELCOMED MARSHAL FOCH

Ernest Hall, Arizona's Secretary of
State, Knew France's Idol Under
Different Circumstances.

When Marshal Foch visited Arizona
on his recent tour of the United States
as the guest of
the American Leg-
ion, he was offi-
cially welcomed
by Ernest R.
Hall, Arizona's
secretary of
state, who in the
absence of the
state's chief ex-
ecutive became
acting governor.

It had not been
many months
since Mr. Hall
had seen the marshal under entirely
different circumstances. On that for-
mer occasion, Mr. Hall wore the "is-
sued" uniform. He was known as
"Colonel Hall of the Twenty-seventh
Engineers."

Although he was over draft age and
a member of the state senate when
war was declared, he was one of the
first men in his community to enlist.
Just now he is almost as proud of
his position as chaplain of the Frank
Luke, Jr., post of the American Leg-
ion as he is of the secretaryship.

Carrying On With the American Legion

Tyron, Neb., 26 miles from a rail-
road, in the midst of the sandhill re-
gion, has dedicated a \$2,500 Ameri-
can Legion memorial hall.

The Legion in Massachusetts has
raised funds to install a radio receiv-
ing set in each of the state's five hos-
pitals where service men are being
cared for.

Free traveling libraries are being
furnished Oklahoma posts of the
American Legion by the department
of education. The post may keep
each collection of books two months.

Commander Hanford MacNider of
the Legion has announced himself in
favor of every Legion post adopting
a troop of boy scouts or forming
troops in communities where none
exist. "Scouting is the best educa-
tion in America today for developing
future citizens and I favor anything
that tends toward its promotion," Mr.
MacNider says.

Plans and specifications may be
seen at the office of the secretary.
Each proposal must be accompanied
by cash or certified check in the au-
thority of Two Hundred Dollars (\$200.
00), made payable to the treasurer of
the board of supervisors of said Hus-
ton Township.

All bids must be upon blank forms
furnished by the undersigned. The su-
pervisors reserve the right to reject
any or all bids.

By order of the board of super-
visors.

M. J. JOHNSON,
Sec. of board.

ODDS AND ENDS AND THINGS

By J. D. C.

The United States Government col-
lected \$38 in revenue for each resi-
dent of the country during the fiscal
year just ended, according to an offi-
cial statement of the Treasury De-
partment. Business men and consum-
ers supplied the money in taxes and
tariffs. This figure represents the
cost of government per capita in this
country.

The cost of government in other
principal countries follows:
England, \$95 per capita.
France, \$42.
Japan, \$13.
Italy, \$11.

The United States revenue totaled
\$4,109,104,000 in the fiscal year just
ended. In England the total \$4,330,
480,000 and in France, \$1,744,725,000.
Japan collected \$764,392,400 and
Italy \$456,334,000.

The population of the United States
is nearly twice as great as that of
Japan and well over double the popu-
lation of the British Isles, of France
and of Italy.

Business is heavily taxed in
France, Italy and England. The Brit-
ish normal income tax is more than
2 per cent, the American 4 per cent.

Five items suffice to describe all
sources of revenue of the United
States Government in the Treasury
daily balance sheet. More than
twenty items are required to enumer-
ate the sources of revenue of the gov-
ernments of France, England, Japan
and Italy.

Business men of these countries
are required to contribute to the sup-
port of their governments in much
larger proportion than in this coun-
try. Operating costs are smaller in
the United States as far as taxes are
concerned than in any of the prin-
cipal countries of the world. Taxes on
business make high living costs for
the consumer. The excess profits tax
adopted by many countries to furnish
war funds, has now been abolished in
this country, although it is still re-
tained generally throughout Europe.

American revenue collections are
falling, those of other nations rising.
The Government of the United States
is spending less, other governments
more. This Government in the last
fiscal year collected approximately
more than it spent, according to the
ordinary balance sheet of the Treas-
ury.

Per capita revenue collections is re-
garded as a more trustworthy meas-
ure of the cost of government to the
individual than disbursements. Re-
venue per capita measures the amount
of money actually paid into the gov-
ernment by citizens. Expenditures
per capita includes borrowing to be
paid by future citizens. Expenditures
per capita includes borrowing to be
paid by future citizens.

STRIKING MINERS HALTED BY COURT ORDER IN OHIO

Cleveland, Ohio, July 18.—Striking
miners were restrained from inter-
fering with the operation of the

Wayne Coal Company's mine at
Duidee, Ohio, by an injunction issued
by Judge Westenhaver. Picketing,
congregating and parading on mining
property is forbidden by the injunc-
tion. The petition requesting the in-
junction indicates that non-union
miners will be employed immediately.

THE RIGHT STAND, MR. MELLON

Whatever may be the sensations of chagrin that pursue Elmer Dove because of undenied rumors of his resignation as assistant secretary of the treasury, his loss will be the public's gain. Secretary Mellon's decision in support of Commissioner Blair of the internal revenue department seems to have completed two points in a situation that has been a source of irritation to the higher elements of the administration. One was that business principles and practice in the treasury department take precedence over political exigencies; the other was Mr. Dove's conclusion that under such circumstances the treasury is no place for him.

Commissioner Blair supplied all the resistance to Dove's program to dismiss a long list of appointees held over from former administrations because of experienced business ability, but in the final clash Secretary Mellon, flatly sided with Blair. The country endorses Commissioner Blair and Secretary Mellon for their stern defense of business practice by trained business men, especially in such a critically balanced business department as that of internal revenue.

REGULATING FLYING

One-half of the 1,200 commercial airplanes now in operation in the United States are operated by "gypsy" fliers, without a fixed base of operation and generally without means of assuring a reasonable degree of responsibility. Six hundred planes are controlled by 125 operators "with a fixed base and financial responsibility." Each class flew in the neighborhood of 8,000,000 miles and carried 125,000 passengers. There were 114 accidents, resulting in 49 deaths and the injury of 89 persons. Yet not one person was killed in a straight commercial flight by the more responsible group of flying men. The figures are for the twelve months ending last October 1st and are vouched for by the Aeronautical Chamber of Commerce, an organization earnest in advocacy of a bill to provide federal regulation of commercial flying.

A bill embodying the ideas of the aircraft producers was recently passed by the Senate and is now before the House. Spooner or later regulatory action is certain. In every other form of passenger carrying for hire the federal, state and local governments co-operate to enforce certain standards of safety and to insure financial responsibility adequate to safeguard the victim of an accident, or his family. Passenger flying is yet only a novelty, but promises at no distant date to become an established and important method of transportation. In the meantime persons who patronize commercial aviation encourage and hasten the flying age; and the patrons of the new era are entitled to assurance that operators comply with recognized standards of safety and responsibility.

DENVER AN EARLY BIRD

Today's outstanding example of forehandedness is Denver, which, inspired probably by reports that the rivalry will be unusually keen, has announced its intention of capturing the Republican national convention in 1924. At that, though, the "mile-high city" might have more success in going after the Democratic convention, which it had in 1908.

The Republican party of late years seems to have a preference for Chicago as a convention city. It met there in 1904, 1908, 1912, 1916 and 1920. Philadelphia had the convention in 1900. The party 20-year habit will be hard to break. The Democrats have been less constant. They have met at Denver, Baltimore, St. Louis, San Francisco and other places.

It is reported that Minneapolis and Kansas City, which have had the privilege of entertaining national conventions in the past, will enter the lists against Denver for the Republican gathering. They, also, possess adequate halls for the meeting, the first essential. Chicago, significantly, is not saying a word. Her record speaks for her. When it comes to facilities for taking care of big gatherings Chicago is in a class by herself. She can handle a national party convention without getting flustered and neglecting her regular business.

The theory no longer obtains that there is any political advantage in holding a convention in a certain city. The practical question concerns the general accessibility of the town and its ability to take care of the delegates and the thousands of visitors attracted by the event. Chicago wins on both counts. But there is no reason why Denver boosters should not try to seize her laurels.

TROUBLE INSURANCE

Don't congratulate yourself that you're fully protected until you've secured trouble insurance.

Like every other kind of insurance you must buy it when you don't need it or you can't get it at all.

Pay a fixed sum each month into your savings account as a premium on your trouble insurance.

Then no matter what happens you'll have the protection of ready money.

CLEARFIELD TRUST CO.

The national project: Too much ado about how to do who.

If bandits must be, they might as well be polite about it.

A woman can't make a fool out of a man without his co-operation.

Madagascar takes all idle persons. That is worse than dodging traffic cops.

But even in corsets a lot of men probably would not be straight-laced.

We suppose the founder of the word debt put the "b" in to supply it with a sting.

The most marvelous thing about radio is that it can make Americans listen.

It is a safe bet as to how the fellow who bets on the horse races will finish.

It is only natural that in touring the world the English flyers should include Turin.

Flood lights for the garage may be the next step in coping with auto bandits.

There's this about the musical numbers on radio programs: There are no encores.

One of the best chances for peace lies in these frequent amputation-plug explosions.

The clothing industry is said to be in a period of transition. From long ones to shorts?

It is a rare man that can get mad over evolution without making a monkey of himself.

Those who are doing quite a lot of talking about woman's dress have little to talk about.

If you wish to ascertain how little faith there is in this world, hang out a fresh paint sign.

Are the promoters of the gogo stick trying to make monkeys out of the innocent purchasers?

Painting the lily may be an impossibility, but painting a rosebud mouth is an everyday fact.

There is danger in having too much gold says the treasury controller, but few of us need worry.

Those dentists who are urging jaw exercise evidently never attended a state political convention.

A slim line tailored suit is one among a variety of styles most of which conflict with a slim-line purse.

One of the strangest things in this world is how eager a man is to smoke after his last match goes out.

The snappers have organized. No doubt their motto will be, "Remember, girls, he's somebody's brother."

Another nice thing about being a radio soloist is that you don't have to buy a new dress for the concert.

Red, green and blue sports shoes are said to be the thing and, of course, they will demand clothes to match.

The world is rather clearly divided into two parts—those who want big loans and those who can grant them.

The way of the transgressor in these days of motor cars and cement road ways has many thrills before the finish.

As a rule, you can depend upon the man or woman who does an honest day's work to do an honest night's sleep.

Germany and Russia have abolished tipping. And the marks and rubles worth so little even the waiters don't seem to care.

However if you have made plans for your vacation, it might be just as well not to wait for that predicted reduction in railway fares.

The one thing in the world that will make you feel friendly to a man practicing on a saxophone is to listen to another man arguing the tariff.

The movement for elevating the stage is a good thing. If successful we may be able to see over the heads of the girls with the puffed-out hair.

The citizen who finds his rake is missing always has two guesses between the one who lives next to him on the right and the one on the left.

If the movement to compel fishermen to confirm all their yarns is successful one more source of summer entertainment will be broken down.

"Men do admire the handsome girl," says a beauty writer. Aye there's the rub. And that's what keeps the divorce courts working overtime, too.

Lightning struck and felled a man who was walking along a road. It is entirely probable that the first thing he said after coming to was "Get his number."

Shoe manufacturers who "try to save certain women embarrassment by re-standardization of the size of shoes" may spare themselves the trouble. You cannot re-standardize feet.

Henry S. Jacobs, of Brooklyn, N. Y., is making a ten day home-coming to his parents, Rev. and Mrs. H. L. Jacobs, 113 S. Second street.

THE OLD HOME TOWN

By Stanley

LUTHERAN DAY AT LAKE MONT THURSDAY 27TH

The Lutherans of Central Pennsylvania will meet in their annual reunion at Lakemont park on July 27th. The event this season promises to surpass any preceding one. A program of unusual interest has been prepared for the occasion. The address at the morning session will be delivered by the Rev. Prof. Charles J. Smith, D. D., president of Roanoke College, Salem, Va. The orator of the afternoon will be the Rev. F. H. Knobel, D. D., LL. D., president of the United Lutheran church in America, New York City. The boys' band of the Loyeville Orphans' home will again be present to assist in the program throughout the day and give the concert of the evening.

The music of the program will be under the leadership of J. Calvin Lang, Jr., Esq., of Hollidaysburg. He has provided some very special vocal numbers for the morning and afternoon sessions.

Provision has been made that no one will need burden himself with baskets or be anxious about refreshments. The ladies of Temple Lutheran church have made themselves responsible for everything along this line. They are making great preparation to supply the needs at a very nominal cost.

ARGUMENT HEARD IN PULSI CASE

Judge Bell this morning heard the argument on the motion for a new trial in the case of Tony Pulci of DuBois, recently convicted of manslaughter for the killing of Charles Nolo at DuBois last January. Attorney's Gleason and Margiotti represented Pulci, while District Attorney Arnold looked after the interests of the Commonwealth.

Judge Bell reserved his decision for the present.

CURWENSVILLE

Mr. and Mrs. Bartley Warner and Mrs. Gray and Robert of Chicago and George Harriot of Pittsburgh, who were here on Thursday and took dinner with Mr. and Mrs. F. P. Tate their home on George Street.

Saul Robinson, who has been playing with the Harrisburg baseball team is spending several days in Curwensville and Clearfield.

Guy Clark and family arrived home Saturday evening after spending one time at Atlantic City and Philadelphia.

Mrs. Abe Shapiro, Mrs. J. Fine, Margaret Shapiro, Esther Sable, Florence Perlman and Lottie Silver were Curwensville visitors from Clearfield Saturday.

Mr. Margaret Rhodes entertained one friends at her home on George Street on Monday evening.

C. F. Doughman of Grampian was topping in town yesterday.

Isaac Kantar is spending a few days at Altoona.

Rev. and Mrs. B. H. Conley and on Albert left yesterday for Tarentum, Pa., where they will visit their daughter and sister Mrs. C. W. Appleby. They will also visit in Ohio and Virginia.

Louie Albino of Pittsburgh is spending a few days in town.

WINBURNE

The Demonstration given by the pupils of the Daily Vacation Bible School Sunday evening in the Presbyterian church proved that a vast amount of work had been done during the past five weeks. Much credit is due the volunteer teachers: Rev. Thomas, Mrs. Thomas, Rev. E. L. Ritzman and Misses Hess, Wickman, Thomas and Hall. On Friday the school enjoyed an auto ride to Clearfield and a picnic to Lakeside Park.

Mr. and Mrs. Jack Dudley are so happy over the arrival of a fine baby girl July 13th, the first little one to bless their homes.

Practically all of our men have returned from the cities where they have been employed for a few weeks and are ready to "dig in" just as soon as the whistle blows.

Born to Mr. and Mrs. Guy Devine at their home here last Wednesday, a nice little daughter.

The Women's Missionary Society held a fine meeting with a record attendance Thursday evening at the

home of Mrs. Thomas Barr. The devotional and business meeting took place out of doors, after which the crowd moved into the house and were entertained by a delightful program and served with very choice refreshments. Mrs. Slinger and Mrs. Richard Gray assisted the hostess.

Dr. Storke has been very generous here in the last few days, he left a little son at the home of Steve Kisa, and a dear little girl to Mr. and Mrs. Tate, this making their eighth child.

Mr. and Mrs. A. O. Somerville and family motored from Patton, Monday spending the day at the R. H. Somerville home and leaving two children Betty and Allan Jr. to visit for a week with their small cousins.

A jolly crowd, numbering thirty women and children journeyed to Phillipsburg Thursday and spent the day in a very happy manner with their old time neighbor and friend Mrs. David Johnson who now resides on a farm near the burg.

Saturday afternoon a farewell party was tendered Miss Alice Lindmark, at her home in Lanser by twelve of her girl friends. The time was pleasantly spent in games and all did justice to the delicious picnic supper. Many regrets were expressed over the departure of Mr. and Mrs. Lindmark and family who will sail this week on the S. S. "Stockholm" for Cottenberg, Sweden.

Coal Mines To Open

(Continued from Page One)

House, said that "we have now reached a point, owing to the refusal of mine workers and a minority of your operators to accept the proposed arbitration, where the good offices of the government in seeking a voluntary adjustment of the dispute between operators and mine workers are without avail."

All Accept Principle

The statement said that coal operators "extended verbal and written reports to the President," all of them subscribing broadly to the proposal for arbitration.

A majority of the districts accepted the proposal unconditionally, it was stated, while a minority of the districts represented in the conference joined in subscribing to the general principle of arbitration and collective bargaining.

The President told the delegation he was disappointed in their lack of unanimity. A large majority of the operators, it was said, "pledged readiness to resume activities under the government proposal."

The President told the operators that "freedom of action on the part of the workmen and employers does not measure in importance with that of public welfare and national security."

Alfred M. Ogle, president of the National Coal Association and chairman of the general operators groups said the employers would accept the President's suggestions and that in each district they would attempt the opening of mines by such methods and means as seemed available. He predicted that some immediate production would result from Pennsylvania mines, but declared that more difficulties might be encountered in Illinois

and Indiana.

The White House statement which preceded a transcript of the President's remarks to the operators follows:

"At 5 o'clock this afternoon the coal operators made a verbal and written report to the President. All of them subscribed broadly to the proposals to arbitrate."

"The majority of the districts represented in the conference accepted the President's proposal unconditionally."

"A minority of the districts joined in the conference in subscribing to the general principles of arbitration and collective bargaining."

The communication taken to the White House by the delegation, after stating that the operators were in "entire accord" with the plan to establish a general tribunal to inquire into all affairs of the industry, urged that such plan be put into effect by the President.

Operators' Letter

In their letter to the President explaining their situation, the operators said:

"We have given most careful and thorough consideration to the proposal submitted by you on July 10, supplemented by your statement of July 15 and we are not only in entire accord with your plan to establish a general tribunal to inquire into all the facts in or industry and make recommendations for the solution of our fundamental problems, but we urge that such a plan be put into effect by you."

"We also wish to remind you that we already have proposed the broad principle of arbitration in our previous conferences with the officials of the administration and with the representatives of the miners. We still stand on that broad principle and are in entire accord with you in that respect."

"We did have in mind discussing with you certain recommendations as to the machinery to make an arbitration plan effective and to accomplish the result which the country and you yourself desire."

Answer by Districts

"In view of the contingencies that confront us and the varying conditions in the different coal producing districts of the country, our conference has decided to answer your proposal by districts, rather than as a whole; we attach hereto statements of the proposition taken by the several districts represented in the conference of operators as embodied at your request in Washington."

"All of the operators of your conference unite in supporting the principle of arbitration and collective bargaining and your high motives in calling us together."

"And finally, they say to you and to the American people, that each and everyone of them stands ready in this crisis to put his property and his own services at your disposal and command at any instance."

Why She is a "Pippin"

How and why the word "pippin" ever broke into the slang language is not known definitely, but the word is an Anglicized form of the medieval French word *pipin*, which means a seedling. When an apple lover of the Dark Ages produced a new variety he called it such-and-such a pipin. It is said that there is no apple stock that is more than 400 years old, though the statement would be hard to prove. A Yorkshire pipin must be very old, and a pearmain may have descended from the days of the Romans.

Something to Think About

By F. A. WALKER

FORWARD, BACKWARD

EVERYTHING in nature is moving toward a great purpose. There is no inactivity in the atoms or in the spheres; no turning backward, no indecision, but a constant movement in a forward direction, carrying us away from the yesterday to new beginnings and new days.

The winds, the tides, the planting of the earth in its prescribed orbit, the rising and the setting of the sun, the coming and the going of the seasons, the blooming and the falling of verdure and flowers, all bear evidence of progress, and eternal life.

Being a minute part of nature, performing your little role in the great scheme of creation, reciting your lines, do you ever pause to ask yourself whether you are moving forward or backward?

In spite of any thought you may entertain in the matter, you are going ahead or drifting behind. Just as surely as the roses bloom in summer and the snows blanket the ground in winter.

You are better equipped for your life-work today than you were yesterday, or less efficient.

Your mental and physical forces have "undergone" an imperceptible change and you have changed with them.

You are a trifle more dexterous in your work or slightly more clumsy.

In the last 24 hours you have not remained in a quiescent state, for the laws of motion have been silently at work, carrying you a step or two forward or backward, setting you down at the threshold of a new day a slightly changed being for better or worse, which you may or may not observe as you take hold of today's duties.

Before night, however, you may become conscious of a new-born power or a lack of it, and wonder what the transformation means.

Its significance is clear. You are going forward or backward, keeping in accord with the eternal motion of things of which you are a part.

If you would move forward, keep step with the men and women who are laboring and achieving in the great purpose, you must watch your every thought, impulse and act, and ask yourself at the beginning of each day whether you are pressing toward victory or turning toward defeat.

"Forward or backward?" ought to be your initial question at dawn, and your final query at night. Let this self-examination become a habit, and in a little while you will be glad that you acquired it.

Mother's Cook Book

"A house is never perfectly furnished for enjoyment unless there is a child rising three years old and a kitten playing three weeks."

MORE GOOD THINGS

A STALE bread will accumulate, a little care is needed to keep ahead of the growth. If dry bread is put through the meat chopper it may then be used for croutettes, meat balls and any number of dishes. Keep the crumbs in a glass jar, sealed from the air.

Tip-Top Omelet

Boil one-half cupful of milk, add one tablespoonful of butter and one cupful of bread crumbs, seasoning to taste. Beat the yolks of three eggs and add them, then stir in the stiffly beaten whites. Pour into a buttered omelet pan and cook until well browned.

Ham Patties

Take two cupfuls of ham chopped fine, three cupfuls of bread crumbs, three eggs and enough sweet milk to make a soft batter. Mix well, drop into gem pans, drop a piece of butter in each and bake until brown.

Brown Bread

Take two cupfuls of stale bread crumbs, one and one-half pints of cold water, mix and soak over night, then rub through a sieve one and one-fourth cupfuls of molasses, one and one-half cupfuls each of graham flour, cornmeal and rye meal, two teaspoonfuls of salt, three and one-half teaspoonfuls of soda and one and three-fourths cupfuls of cold water. Mix well and steam three hours.

Stuffed Apples for Tea

Take fine large apples, core and fill with one-half cupful each of bread crumbs and chopped roast beef, one tablespoonful of melted butter, one teaspoonful of onion juice, one-quarter teaspoonful of celery salt, half teaspoonful of salt, one tablespoonful of parsley chopped and a dash of red pepper. Mix well and press into the apples. Bake in a little hot water from half to three-quarters of an hour.

Fruit Betty

Put a layer of crumbs in a well buttered baking dish, cover with blueberries, canned or fresh, then add another layer of bread with a bit of butter and sugar if needed. Bake until well heated through. Serve with cream and sugar.

Just Do Your Duty.

Do that which is assigned you and you cannot have too much or dare too much—Emerson.

COUNCIL INSISTS

Continued from Page One

me, on Elmwood avenue.

Charles T. Kurtz, representing the Clearfield Park Association, was present and asked that the property owners be required to build sidewalks on Park street from Nichols street to the Park. Accordingly notices to build walks were ordered served on the following property owners on this street: C. E. Fisher, J. S. Chaplin, F. H. Thompson, Earl Gearhart, Freeman Smith, William McBride and Paul Ferguson. Mr. Kurtz stated that sidewalks were needed on this street as a safeguard to patrons of the park.

Increase of Debt Ordinance Passed. Borough Solicitor Urey presented an Ordinance providing for an increase of debt to the amount of \$6000 for the purpose of purchasing a hose and chemical wagon for Elk Hose Company. When this Ordinance came up, Harry Carlson, representing the Elk Hose Company arose and reiterated the statement made at last meeting that the Elk Hose Company would not accept a hose and chemical wagon if purchased for him. President of Council Rosser stated that Council voted to purchase a hose and chemical wagon for Elk Hose Co., at the request of the Fire Department that after that request he burden to purchase such machine was upon the Council, they had carried out the request of the Fire Department and if, after purchase, the company refused to use the apparatus, the burden would be upon the company. The Ordinance was then passed, the three members of Council from Fourth Ward voting No. A motion was then made directing the President and Secretary of Council to contract for a hose and chemical wagon and this was passed with the three East End Councilmen voting in the negative.

Lower Witmer Park. Captain L. E. Watson of the Salvation Army appeared before Council and asked for permission to place a tent in lower Witmer Park for the holding of special services during the summer months and same was granted. The Army will move from its barracks in the Clearfield Progress buildings until the snow flies in the fall.

Want to Install Gas Tank. Thornton Hile, of the Orent Garage was present and asked permission of Council to install a gasoline tank between their garage and the McLaughlin barber shop on Third street with a pump at the curb. The request was referred to the Highway Department.

Want Traffic Laws Enforced. The almost unanimous disregard and violation of the traffic laws of both State and borough was the subject of general complaint by about every member of Council present and

SPENT HALF HER TIME IN BED

Farmer's Wife Tells How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman

Carter's Creek, Tenn. "Three years ago I was almost an invalid. I spent half of my time in bed, being afflicted with a trouble which women of a certain age are apt to have. I took Lydia E. Pinkham's Vegetable Compound Tablets and used Lydia E. Pinkham's Sanative Wash. I am a well woman now and have been for two years. I can work as well as any one who is younger and as I am a farmer's wife I have plenty to do for I cultivate my own garden, raise many chickens and do my own housework. You may publish this letter as I am ready to do anything to help other women as I have been so well and happy since my troubles are past."—Mrs. E. T. GALLOWAY, Carter's Creek, Tenn.

Most women find plenty to do. If they are upset with some female ailment and troubled with such symptoms as Mrs. Galloway had, the smallest duty seems a mountain.

If you find it hard to keep up, if you are nervous and irritable, without ambition and out of sorts generally, give the Vegetable Compound a fair trial. We believe it will help you greatly, for it has helped others.

The Grill Is Cool

There may be cooler places in this city than the Grill but we haven't heard of them yet. The natural coolness of being underground is further augmented by breezes made by fans that purr away the day through and make the Grill cool enough to enjoy the good things we have to eat and drink.

VIRGINIA CHOCOLATE SHOP

All P. R. R. Trains Stop Here Come in and Wait.

Burgess Kittelberger was asked to strictly enforce the motor traffic laws. The Burgess stated that he would comply with the request of Council, that during his six months in office he had tried to give automobile drivers a chance, thinking they would respect the law after his doing so, but he found they wouldn't do it, and when he gave them an inch they promptly hauled off a yard and then some, and that the women were as bad, if not worse than the men. He said he had instituted a new policy and hereafter every person brought before him for violation of the traffic laws would be fined.

Third Street Parking and Speeding Condemned

The complaint of the Pennsylvania Railroad Company relative to the careless parking of automobiles on West Side of Third street, which necessitated the stopping of train many times was called to the attention of Council and some talk of forbidding parking on this street was heard. President Rosser said he didn't believe it would be fair to penalize the ninety and nine accustomed to parking there properly on account of the one who disobeyed the law and it was decided to paint a guide line on the

paving and arrest and fine every driver who allowed his car to protrude over that line. The damphool speeder also "got his" and a lot of fellows are going to be called upon to settle for making a race course of our streets if they don't change their tactics.

Police Officers Regularly Elected. Chairman Beahan of Police Committee announced that the Committee had selected Roy McMullen for Chief of Police and Ernest Woolridge for patrolman and recommended that they be elected to these positions at the salaries provided for in the Ordinance. The recommendation was unanimously adopted.

Shade Trees Interfere With Street Lights

The Penn Public Service Company made complaint regarding interference with street lights in many sections of town by growing shade trees and the matter was turned over to the Shade Tree Commission for investigation and action.

JULY BRINGS ITS

SHARE OF BIRTH

DAY GIFTS TO BUY

Lots of folks picked July as their birth month, and these folks naturally expect something as a reminder of each passing birthday. They don't want a really expensive gift—just some little thing that reminds them of you.

And you should see the really fine array of things of this sort that awaits your coming here. There's gifts for men, gifts for women, gifts for the flapper and gifts for the kiddies. And they're all priced so that you can afford them.

EAT AT JORDAN'S

EVERETT TRUE By Condo

FINE BALL GAME IS ASSURED THURSDAY

Manager Bell will put the strongest line up of the season on the field in Thursday's game against Ira Plank's Huntingdon Speedsters. He has secured a new battery of top-notchers in pitcher Rich, of Punxsutawney, and Catcher Nogle of the Johnstown Independents. Peterson formerly of Grassflat, is now a resident of Clearfield, and will also be in the game, while Billy Fauver, the local star who has been playing at Jersey Shore will cover third in his usual faultless style. This game will be well worth seeing and the fans should appreciate Manager Bell's and the American Legion's efforts to give us good baseball by turning out to this game.

Sneezing Once Presaged Death.
In the ancient world sneezing was the subject of much superstition, and was almost always endowed with sinister import. Jewish folklore has it that in the first ages of the world sneezing was always a presage of death until the coming of Jacob. That astute patriarch, anxious lest he himself should perish from such an insignificant cause, besought the Almighty to endow sneezing with more beneficent attributes, and since then it has been lucky to sneeze between noon and midnight.

WILLIAMS AUTO SALES CO.

MURDERERS OF DR. RATHENAU SUICIDE

Berlin, Germany, July 18.—Fischer and Kerin, the assassins of Dr. Walter Rathenau Foreign Minister, committed suicide today, as the police were about to arrest them. The two fugitives had barricaded themselves in a tower. Vollev after vollev was fired by the police at the tower and he police heard the men shout "you win." This was followed by two shots within the stronghold. Kerin and Fischer were dead when the police entered the tower.

METHODIST DAY EVENTS

Thursday, July 20, Methodist Day will be held in Lakemont Park, Altoona, with a very full program. Dr. W. L. McDowell, connected with the Board of Home Missions and Church Extension, preaches in the morning. The afternoon platform address will be delivered by a number of Church leaders, whose names have not been given out in order to awaken interest. The popular night meeting is given to Dr. Morris E. Swartz, Centenary Secretary of the Washington area, who has his own attractive program. Special rates have been offered by the Pennsylvania road to Altoona and return. Inquiry at any railroad ticket office for both rates and duration of ticket.

WAR TORTURED STOMACH FREED FROM MISERY

Wounded Overseas Man Gets Great Relief with Jacques' Wonder Capsules

"For three years and five months of the World War I wore the khaki of an infantryman. Through the hell of Ypres, St. Etienne, Arras, the Somme, Amiens and Passchendaele, we trudged through the mire. The mud and the slush and the constant shelling took their toll of the men's morale, but even worse than this were the cold rations, or none. "I suffered from stomach trouble as others did, without aid, until wounded at St. Etienne, in the spring of 1918; then came the Red Cross hospital in England. A few days called me back into the shell swept areas of Belgium, broken in constitution, but able to carry a rifle. Gradually starving, yet carrying on, as others did, down to a weight of about 110 pounds, until one day an enemy shell got me again—Brighton, England, for me. "Days in the hospital. Then before a medical board, ordered back to Canada, and there discharged, medically unfit. During all these months of careful medical treatment every effort was made to restore my appetite and train my stomach to digest food, but without success. "I returned to my home in Syracuse, N. Y., shattered in health, unable to digest my food and altogether despondent. In 1919 my work took me to Plattburg, N. Y., where I became acquainted with Jacques' Little Wonder Capsules. I took the capsules and I am today free from the constant misery in my stomach. "Through my love of the old uniform I do not feel that I can have my name published, but if anyone interested will drop a line to the Jacques Capsule Co., Plattburg, N. Y., they will be given my name and address." On sale at Woodward & McPherson, Clearfield, Pa., or 60 cents by mail postpaid for large package from Jacques Capsule Co., Plattburg, N. Y.

THAT CURIOUS DEVICE FOR MAKING FIRE

It was only seventy-five-years ago that a woman of the Middle West wrote to her cousin in New York:

"Last winter I was told of a curious new device for making fire. It consisted of small splinters of wood with tips of some substance that bursts into flame when rubbed on a rough surface. If you can procure some of them for me I shall be grateful."

Matches were in general use in Europe for years before they were seen in this country. There was no means for spreading such news rapidly.

Today, the new invention that contributes to comfort or convenience is quickly known the country over. Advertising conveys the information. The farmer's wife in Texas or Idaho is as well posted on these things as the city woman of the East.

Don't overlook the advertisements in these columns. They are heralds of progress, with real news for you and your family. They save you time, lighten your work and enable you to obtain the utmost in value for the money you spend.

TIME GIVEN TO READING THE ADVERTISEMENTS IS WELL SPENT

COAL MINES TO OPEN AT HARDING'S ORDER

"RETURN TO YOUR MINE PROPERTIES AND RESUME OPERATIONS," SAYS PRESIDENT IN EFFORT TO BRING END TO STRIKE

Bituminous Coal Men Are Practically Assured Of Assistance Of Federal And State Forces By President Harding In Statement Made At Conference Following Acceptance Of Plan.

PENNSYLVANIA OPERATORS DISSENT

WASHINGTON, D. C., July 18.—President Harding, as the Government's next move in the present crisis, will call upon the Governors of all the States to take immediate steps to protect the mining of coal and movement of trains, it was learned officially here today. The White House announced the President would issue an appeal to the Governors before night. Backing up this appeal will be a warning that if the States cannot cope with the situation the Federal Government will be forced to intervene and use the United States army. This course of action was decided upon by the President and his Cabinet at their meeting today. It was denied that the use of marines on trains had been decided upon.

WASHINGTON, D. C., July 18.—President Harding and his Cabinet met as a council of war today determined to force the production of coal, in the face of a strike of 600,000 miners and the refusal of their leaders and the operators to submit their differences to arbitration. Keeping in mind the battle at Herrin, Illinois, and the fight in West Virginia yesterday, the President and his Cabinet discussed the advisability of placing Federal troops on guard at all mines accepting his invitation to re-open. The fear is openly expressed here that the nation faces one of the greatest industrial wars in its history. The President is planning on using State and Federal military forces to bring about coal production. If the State forces cannot maintain order at the mines Federal troops will be used. The President emphasized the fact that the overwhelming need is the production of coal and that this must be brought about, no matter how it will affect either the operators or the striking miners.

Washington, July 17.—President Harding today invited bituminous mine operators, who notified him at the White House of their acceptance of arbitration in the coal strike to "return to your mine properties and resume operations."

The President, in a statement issued after the delegation of bituminous operators had left the White House (Continued on Page 6).

BILL ROSS' WALKING LAWN MOWER GETS HIMSELF IN WRONG

Bill Ross was entered in the Clearfield County Courts yesterday by Pentz & Pentz, representing Peter Molando, of DuBois, against Matthew Baranowski. In this suit the plaintiff alleges that Baranowski is the owner of a vicious horse which he allows to run at large and crop the grass off the streets in front of the Courier office in DuBois and the commons out in Sandy township. That on June 4th last the horse was pasturing on a commons in Sandy township, when John, the six year old son of the prosecutor happened along on the way across the lot to visit his grandfather. The horse attacked the child, knocking him down and then kicked and trampled him. The lad suffered a fractured skull and other painful injuries before the vicious animal was driven away from his victim.

It was found necessary to remove a part of the child's skull and the father brings this suit to recover for the expense he was put to by reason of his boy's injuries.

NEW YORK FIREMAN KILLED AT FIRE

New York, N. Y., July 18.—Fire Lieutenant Eugene Shopmeyer was killed by a falling cornice and from fifteen to twenty other persons, including several women, were injured in a spectacular fire in the six story building of the Manhattan Transit Company. Exploding chemicals spread the flames to other buildings, and the police ordered all occupants of neighboring buildings to vacate until the fire was brought under control.

ELOPING PREACHER GETS YEAR IN JAIL

Xenia, Ohio, July 18.—Rev. W. W. Culp, of Spring Valley, Ohio, who eloped with his wife's pretty summer boarder, Miss Esther Hughes, was fined \$500 and costs and sentenced to one year in the Dayton work house by Judge Marshall here today. Culp was charged with abandoning his wife and nine children to flee with Miss Hughes, his affinity. The couple were arrested near Port Huron, Michigan, late last week. Culp wept bitterly as Judge Marshall passed sentence on him.

Esther Hughes, 19, church organist, and Rev. Walter Culp, minister, were found peeling potatoes in Port Huron, Mich., and held for authorities from Spring Valley, O., where Culp has a wife and nine children.

COUNCIL INSISTS THAT SIDEWALKS MUST BE BUILT

Sidewalk Building Campaign Occupies Attention of Borough Solons At Last Night's Meet.

SPEEDBOYS ARE HIT

Ten members of Council and Burgess Kittelberger participated in last night's meeting of Town Council which among other things added a new chapter to the sidewalk building campaign begun several weeks ago. Report was made at this meeting that the Poole walk at Corner of Turnpike avenue and McBride street had been built at the direction of Council and work started on the Anderson walk on East Locust street. Notices to build several other walks in different sections of town expire during this week and the street crews were directed to build these as fast as the notices expire, and where the property owner has failed to comply. The Ordinance under which these walks are being built provides for a twenty per cent penalty for failure to comply with the notice to build.

Want More Walks Built
Notices to build walks were ordered served on the following property owners: Ashley Rishell, Forest Livingston Harry Henchberger, Ralph Pearce Clearfield Textile Co., and Charles Meagher on McBride street, and Mr. Albert Derrjck and Mrs. Albert Derrjck (Continued on Page 7).

NEW YORK POLICE IN BIG BATTLE WITH GUNMEN GANG

New York, July 18.—A desperate hand to hand battle on the narrow running board of a swaying taxi ended when an alleged gunman was mortally wounded by a policeman and two members of a Harlem gang were shot. With sawed off shotguns the bandits gave battle to three policemen up and down Harlem streets until two of them were killed. The rest scattered one leaping to the running board of a passing taxi and holding a revolver to the driver's ear. The shots awakened frightened citizens and a crowd was soon pursuing the fleeing yegg. By twisting and turning the taxi was eluding pursuers behind when a policeman on duty ahead caught a glimpse of the revolver barrel and leaped onto the running board where he engaged in a close range battle with the bandit and finally succeeded in inflicting a fatal wound.

COYLE-RAPSEY SHOP ROBBED OF TOOLS AND ACCESSORIES

The Coyle-Rapsey workshop located in the old Harder garage building in rear of their Market street salesroom was broken into and robbed of about two hundred dollars worth of tools and automobile accessories during last night.

The robbery was discovered by Doc Cramer this morning when he went to open the shop for business. The police and Detective Eppers are working on the case.

In addition to the haul of tools, etc the thieves also got away with some of Doc Cramer's personal effects. "Doc" thinks there might be a woman mixed up in it as a picture of one of his girls which he kept in a frame over his work bench is missing together with a letter or two he had recently received from her and had placed behind the picture for ready reference.

NEW EVIDENCE IS FOUND FAVORABLE TO MURDER SUSPECT

Los Angeles, Cal., July 18.—New evidence designed to free Mrs. Clara Phillips charged with beating Mrs. Albert Meadows to death with a hammer was planned today by her counsel. The defense in a formal statement today said: "All that it is possible for us to say at this time is that the circumstances surrounding the death of Mrs. Meadows reported by the press have not been stated in full, despite the apparently convincing story which has been related."

"OLD NICK" LENINE IS KILLED AGAIN

Copenhagen, July 18.—Nicolai Lenine was murdered while enroute to a Caucasian watering place, according to a despatch received here today from a Riga correspondent of the Svenska Dagbladet. The report which lacked confirmation stated that poison was administered to Lenine on the train and his body hurled into the river Don while the train was crossing a bridge.

London, England, July 18.—The Russian trade delegation today discredited the rumor that Lenine had been murdered.

INSURGENT IRISH AGAIN ON THE RUN

Dublin, Ireland, July 18.—Insurgents are in full flight from Klonmel their party headquarters and stronghold in the South, according to word received here today. It was reported that 2000 rebels had been captured.

STATE SCHOOL BUILDING PROGRAM IS HEAVIEST IN HISTORY—502 BUILDINGS

Harrisburg, July 17.—The heaviest school building program in the history of the state is now under way, with plans for 502 school building operations submitted to the State Department of Public Instruction during the year, according to information on file in the department here.

The program involves the expenditure of over \$20,000,000 by the school districts and it is being added to weekly by submission of additional plans for the study of the Bureau of School Buildings. The 397 building situations on file at the present time indicate a building program that extends into almost every county in the state.

Since July 1, 1914, the State Department of Public Instruction has acted in an advisory capacity and examined plans and specifications on 1865 building projects calling for the expenditure of \$112,154,411 for school buildings in the State by August 1st.

It is estimated that the number of projects will be increased to 2125 and the cost of buildings to \$50,288,235. Lancaster County is just starting a large building program. Cambria County has 39 new school buildings going up this year and there are extensive operations in a number of western counties as well as in Luzerne and Lackawanna Counties.

Many plans for large school buildings now before the Department are being rechecked and revisions made which will effect a savings of thousands of dollars to the school districts. One city in Western Pennsylvania received bids on an elementary school building, which ran over \$300,000, while the recasting of the plan by the department's experts will reduce the cost of this one building over \$100,000 and give an additional auditorium and gymnasium.

Studies of plans made by the experts (Continued on Page 2).

JUDGE CORBETT SETS ASIDE ACTION OF PUNXSU JUSTICE

Holds That Flying Over Posted Lands Is Not 'Trespassing,' Accord To Penna. Statutes.

FLYERS NOW SUE

Flying over land posted against trespassers does not constitute a trespass, at least not under the act of 1905, according to Judge Charles Corbett who Monday morning reversed the decision of Justice of the Peace C. C. Rowan, of this city, who Friday last fined Harold O. Nevin and Leon B. Smith, aviators \$1 each for trespass, on information made by O. P. Grube, of near town.

In reversing "Squire Rowan's decision Judge Corbett placed the costs of the initial hearing and appeal upon Mr. Grube. The costs amount to about \$100. In addition Messrs. Nevin and Smith this morning brought suit against Mr. Grube for civil damages in trespass as a result of their arrest. Frances Cole (Daredevil Hank) arrested in company with Nevin and Smith, but discharged by "Squire Rowan, instituted a similar suit Saturday morning. Each suit names \$5,000 as the amount of alleged damage suffered.

The testimony offered this morning was to the effect that Nevin had started his machine from the Barger stock farm adjoining the O. P. Grube farm and flew over the Grube farm at a height of about 50 feet for a distance and then rose to a height of about 350 feet.

In rendering his decision Judge Corbett said that there was nothing in the Act of 1905 on which a conviction for "air trespass" might be secured, that it only contemplated the punishment of persons who trespassed upon the ground on posted property.

The case is to be carried to the appellate court, according to W. B. Adams, attorney for Mr. Grube. Mr. Adams stated this morning that Mr. Grube has started the proceedings purely to ascertain the law in the case and the rights of landowners in relation to airplanes and other vehicles of the air. Mr. Adams is of the belief that Pennsylvania will soon enact legislation governing the height at which airplanes, etc., must fly and he believes that this case will be purely instrumental in bringing about (Continued on Page 2).

ROUND TWO IS WON BY HEAVY WEIGHT; BOTH LOSE THIRD

The second round in the "Battle of Second street" was pulled off before "Squire F. G. Chorpennin Monday afternoon and resulted in a verdict for the defendant, Mrs. Wilbur Antes, while the prosecutrix, Mrs. William Wilson, was directed to pay the costs.

After hearing the ten or a dozen witnesses the "Squire decided that the charges over which the battle occurred were deborned by the statute of limitations and there was nothing to do but decide as he did. Both sides were represented by Counsel and it was a real legal battle.

Round Three
Both "Batters" appeared before Burgess Kittelberger at his office in the Borough building last evening at 7 o'clock and both took the "count of seven." That is to say the Mayor fined each woman \$7.00 for violating the Borough Ordinance against fighting. Thus once more does woman become the equal of man.

Mr. and Mrs. John Swartzle, Mr. and Mrs. Herman Roessner, Joseph Roessner and Miss Mabel Kileoyne motored to Pete Brown's for dinner Sunday.

LABOR BOARD RESUMES NEGOTIATIONS WITH UNION HEADS AND RAIL EXECUTIVES

CHICAGO, Illinois, July 18.—A new undercurrent of peace set in towards settlement of the railroad strike today. The latest peace move was clothed in secrecy. Sponsored by members of the Rail Labor Board, it was understood a new proposal was offered to shop craft laborers. The plan proposed the immediate return of the strikers to work and the re-opening of the wage scale question by the Railroad Labor Board. Previous peace moves were blocked by the refusal of the shopmen to return to work pending adjustment of the difficulties. The new proposition also involves seniority rights, elimination of contract work by the roads and the creation of adjustment boards. Labor Board members yesterday declared they had planned no further peace moves. A few hours later they were again in conference with union leaders and rail executives. Great significance was attached to the re-opening of negotiations.

PLAN FOR ENDING RAIL STRIKE TO BE DISCUSSED AT CABINET MEETING TODAY

WASHINGTON, D. C., July 18.—A plan for ending the rail strike may be introduced at today's Cabinet meeting. Because for the present President Harding desires that all efforts to end the shopmen's walk-out be carried out by the Railroad Labor Board, it is probable that the recommendations of his Cabinet will be sent to the Chicago agency. A report was received by the War Department of conditions at Denton, Texas, and it appeared probable that there would not be an immediate despatch of troops. Definite policies regarding the sending of troops to points where trains are being tied up probably will be framed by the Cabinet.

BUT FOUR KNOWN DEAD FOLLOWING BIG BATTLE IN WEST VIRGINIA COAL FIELDS

WELLSBURG, West Virginia, July 18.—With 43 prisoners in custody, three in Wheeling hospitals, 15 in the Ohio county jail there and 25 in jail here, deputy sheriffs armed with 200 "John Doe" warrants charging murder, securing the country as far as the Pennsylvania border, and a large force of state police and deputies guarding the striking miners' tent colony at Cliftonville, where a battle between a sheriff's force and a large crowd of men yesterday resulted in the deaths of at least four men and the wounding of others, the situation in Brooke county late last night was tense.

THE KNOWN DEAD: SHERIFF H. H. DUVAL, Wellsburg. FRANCIS MILICH, Monessen, Pa. CROOK.

AN UNIDENTIFIED MAN.

The jail here was under guard of 15 deputies, headed by the new sheriff, Thomas Duval, whose father was killed in yesterday morning's fight.

The last prisoner brought in, with an arm in a sling, was said by the officers who brought him here to be the man who killed the sheriff. He was being questioned rigorously at last reports.

The people of the town are restless, incensed that men from outside the state would come into their section and commit outrages against their fellowmen, as the attacking force was said to have done.

Out at the Clifton mine, state troopers under command of Captain White, armed with automatic rifles, were on guard and at the tent colony not far distant. The tents contain mostly women and children, most of the miners having fled after this morning's battle. The troopers are prepared to arrest every man who returns to the colony.

ALL FOREIGNERS.

All the prisoners are foreigners who cannot, or pretend they cannot, speak English.

The fight was on the lips of everyone on the streets, and last night everyone in the town seemed to be on the streets. The affair was discussed from the probable identity of the American who led the onslaught and said "Come on, boys, let's go," to the death of the sheriff.

Several thousand shots were fired during the 40-minute battle and the defenders ran out of rifle ammunition, being compelled to fire at the miners, who were some 700 yards up the hills, with short-range shotguns. The miners seemed to have an unlimited supply of steel-nosed bullets and some of the snipers were expert marksmen.

Cliftonville, W. Va., July 18.—Terror of another Herrin kept deputy sheriffs on picket duty here today following the clash of yesterday in which Sheriff H. H. Duval was killed. Bands of miners, embittered by the death of comrades yesterday, were reported gathering in the wooded hills around Cliftonville. Machine guns were trained on the roads down which an attack might come. The room where the coroner held his inquest was surrounded by armed men, grim faced and prepared for trouble. The first threat of renewed warfare on the part of the embittered miners came from the hills near Cliftonville, but the State Police swept up the hill and charged through an orchard driving the miners back. Truck loads of police scoured Avella, where miners who fled after the battle of yesterday were reported to be gathering. State Police routed twenty five men from the hills near Cliftonville last night, the men fleeing in the darkness.

Capper Defends Direct Primary Against Harding's Criticism

BY HARRY B. HUNT

Washington, July 15.—Extension of the primary law rather than its repeal, must be secured if popular government is to be perpetuated, says Senator Arthur Capper, Republican of Kansas, head of the farm bloc and recognized as a national progressive leader.

Evidence of a careful, systematic propaganda to undermine public confidence in state primary laws with a view to bringing about their repeal and a return to the selection of candidates by party conventions is seen under the recent criticism of primaries by President Harding, Secretary of War Weeks and Senator Watson, of Indiana.

"I cannot go along with the President, Weeks and Watson," Capper declares. "Instead of abolishing or limiting the primary, it must be extended."

"I hope to see the day when nominations for president will be by popular primary. When that day comes we shall be getting on toward a really popular government. The people must have more voice, not less voice in the government and in the selection of men who make and administer the laws."

National Committeemen first. "One of the first steps in extending the primary is the selection of national committeemen by popular vote. That would give the rank and file of the parties a voice. It has none now. "Of course the reason for the dissatisfaction of 'party leaders' with the primaries is not hard to find. Results of recent primary elections in which the people have rejected 'organization candidates' and nominated people of their own choice, has upset them."

"They blame the system. Yet the fact that the primaries gave the voters a chance to name their own candidate instead of having a handpicked organization candidate forced on them is the best possible endorsement of the primary principle. "If the people are not to have a voice in the nomination of their candidates for office, why should they have a voice in their election?"

IDEAL SQUAB FARM NOT CONDUCTED IN IDEAL WAY, CHARGE

Pittsburgh, Pa., July 18. Charged with using the mails to defraud Andrew L. Heppler, aged 46, and his wife, Mrs. Anna Heppler, both officers in the Ideal Squab Company, of Butler, Pa., waived hearing for court before a United States Commissioner here today and each gave \$5000 bail. Heppler, Vice President and General Manager of the company and his wife Secretary-Treasurer, were alleged to have used the mails in a scheme to defraud by sending prospectus to purchasers of stock in the company and that they dispensed more than the amount of capital stock authorized by the charter in the operation of the company.

AUTOIST PAINFULLY HURT

While returning from a drive Sunday night A. M. Boalich was thrown from his car to the road and received some very painful and some what serious cuts about the face, head, leg and arms. The family had gone to spend the evening with Mrs. Boalich's father and mother at Blue Bell and starting home at about 10 o'clock. Just before starting down the hill into Woodland their lights went bad causing a sudden stop. The injured man was rushed to the office of Dr. Shively at Woodland where his painful injuries were successfully and skillfully dressed and at this writing is resting easier.

SENATOR ARTHUR CAPPER

WHY OLD GUARD HITS DIRECT PRIMARY

By NEA Service.

Washington, July 15.—Just how the party organization feels its hold slipping on senators and representatives because of the operation of popular primary is described by Senator Jim Watson of Indiana, one of the Old Guard engineers of the G. O. P. juggernaut.

This lack of control, says Watson, is back of the desire in party organization circles for the repeal of primary laws and a return to the old convention system where the organization ruled.

"Under the primary system," says Watson, "senators come here with an individual mandate. They do not come here feeling they are under great obligations to the party, because each individual has gone out as an individual and won his nomination and election."

"So he does not come here imbued with the idea of team work, as used to be the case when party obligations sat more heavily upon the public men than they do now."

HORSE SHOE PITCHING CHAMP IS COMING

Lloyd Johnson, of Grampian, champion horseshoe pitcher, of the Good-year Rubber Co. at Akron, will come to Clearfield Wednesday evening to engage in a match game with Jay, Day and as yet unnamed West Side expert. The match will be decided upon the West Side Courts and will no doubt attract a crowd.

didates for office, why should they have a voice in their election?"

"If popular elections are to stand, nominations by primary must stand. "No other plan comes near to providing popular government."

Kansas as Example

"Take for instance my state before the time of state primaries. The conventions were dominated by the railroad, stockyard and liquor interests. "The interests combined to control and did control the results in both Republican and Democratic Conventions. They decided who the nominees should be in both parties."

"After that the people could elect which ever nominee they choose. With their candidate hand picked for them they had no selection. Nominations for governors, legislators, even for supreme court justices, were directed by corporation influence, not by the free will of the people."

"Four times out of five, the primary is more important than the election. For in many states a minority party candidate has no chance whatever. The nominees of the majority party are assured of election."

"If the primary is eliminated so the voter has no voice in the selection of his party's nominee, he has no voice in the election."

Fair for Poor Man

"It may be true there are times when a poor man is at a disadvantage under the primary system. But the nomination of Colonel Smith Brookhart in Iowa, as a candidate for United States Senator shows a man can be nominated without spending large sums of money—if he has the people's confidence and they want him."

"Secretary Weeks, it seems to me, out-Bolsheviked the Bolsheviks in declaring that popular government is a failure."

"With all the unrest and discontent now current this is a poor time to take from the people their primaries. Rather, we should be studying how to extend them."

"Not less popular government but more popular government is what we need."

GOOD ROADS MEETING

The annual meeting of the Clearfield county Good Roads Association was held in the Court House this afternoon at 2 o'clock, pursuant to call of President Peter Gearhart.

HARDING'S STATEMENT TO COAL OPERATORS

Washington, July 17.—President Harding's statement to the coal operators was as follows:

Gentlemen:

"I have your decision. I would not be frank if I did not confess a disappointment in your lack of unanimity. To the large majority of you who have pledged a willingness to resume activities under the government's proposal, I must express my own and the public's gratitude."

"We have now reached a point, owing to the refusal of mine workers and the minority of your operators to accept the proposed arbitration where the good offices of the government in seeking voluntary adjustment of the dispute between mine operators and mine workers are without avail."

"I cannot permit you to depart without reminding you that coal is a national necessity, the ample supply of which is essential likewise to common welfare and interstate commerce."

"The freedom of action on the part of workers and on the part of employers does not measure in importance with that of public welfare and national security. I therefore invite you to return to your mine properties and resume operation."

JUDGE CORBETT

(Continued from Page One) ..

such legislation.

Brookville, July 17.—Leon M. "Windy" Smith and Harold Nevin, aviators, today filed suits for \$5,000 each against O. P. Grube, a Punxsutawney farmer, following the decision handed down by Charles J. Corbett in court here this morning, which set aside a fine of \$1 inflicted upon the birdmen by "Squire C. C. Rowan, of Punxsutawney, for alleged trespass,

and placing the costs of that action upon O. P. Grube.

Francis (Daredevil Hank) Cole who had also been arrested upon a warrant issued by Grube, but subsequently discharged instituted similar proceeding against Grube on Saturday.

Sentiment Analyzed.

By the way, why is it that the poor always eat crusts? What do they do with the soft part of the loaf? We never heard of a poor man, not in literature, we mean, who didn't make his meal solely on the crust of his bread.—From the Kansas City Star.

GIVE YOUR

KIDDIES PLENTY OF SAFE MILK

This is the season of the year when your kiddies are as busy as can be playing for all they're worth. They're actually too busy to take the time to eat regularly. So here is where milk comes in. You can let them have it at their scanty meals and, better yet, when they come in and say they are so starved they can't wait another minute.

But be sure that the milk you give them is a safe milk! If you're a regular subscriber to one of our routes, you may rest assured that the milk your kiddies are getting is the purest and contains the highest amount of nutrition that any milk possibly can.

WAR WORKER IS OHIO MAYOR

Miss Amy Kaukonen, Guardian of Lit-
tle Buckeye City, Active in
Auxiliary Affairs.

Ohio not only boasts that she has
produced many more than her share
of the nation's chief executives,
but she also points with pride to
the fact that her little city of
Fairport has one of the most at-
tractive and capable "lady may-
ors" in the country. Miss Amy
Kaukonen, who during the war
was a member of
the volunteer medical service corps of
the United States army, has given en-
tire satisfaction as mayor of Fair-
port.

Mayor Kaukonen finds time from
her official duties to take part in the
affairs of the American Legion Aux-
iliary of her city. That she is a
staunch supporter of the Legion is evi-
denced by her statement: "It is dis-
tinctly an American organization, in
which politics and selfish interest have
no place. Its cornerstone is Ameri-
canism, its objects liberty, fran-
chised suffrage and service. Its principles
are as broad as the continent upon which
falls the shadow of our flag."

The cost of government in other
principal countries follows:
England, \$95 per capita.
France, \$42.
Japan, \$13.
Italy, \$11.
The United States revenue totaled
\$4,109,104,000 in the fiscal year just
ended. In England the total \$4,330,
480,000 and in France, \$1,744,725,000.
Japan collected \$764,392,400 and
Italy \$456,334,000.

The population of the United States
is nearly twice as great as that of
Japan and well over double the popu-
lation of the British Isles, of France
and of Italy.

Business is heavily taxed in
France, Italy and England. The Brit-
ish normal income tax is more than
2 per cent, the American 4 per cent.

Five items suffice to describe all
sources of revenue of the United
States Government in the Treasury
daily balance sheet. More than
twenty items are required to enumer-
ate the sources of revenue of the gov-
ernments of France, England, Japan
and Italy.

Business men of these countries
are required to contribute to the sup-
port of their governments in much
larger proportion than in this coun-
try. Operating costs are smaller in
the United States as far as taxes are
concerned than in any of the princi-
pal countries of the world. Taxes on
business make high living costs for
the consumer. The excess profits tax
adopted by many countries to furnish
war funds, has now been abolished in
this country, although it is still re-
tained generally throughout Europe.

American revenue collections are
falling, those of other nations rising.
The Government of the United States
is spending less, other governments
more. This Government in the last
fiscal year collected approximately
more than it spent, according to the
ordinary balance sheet of the Treas-
ury.

Political questions have arisen
again and again to threaten the peace
of the border, and have been solved
by methods of adjudication such as
the League of Nations was formed to
install. The everlasting fisheries
question; the Maine boundary; "Fifty-
four-Forty or Fight;" the Fenian
raids; the "underground railroad" for
slaves escaping to Canada and Alas-
ka boundary—history is full of pro-
vocatives to conflict which were hap-
pily left unused.

Per capita revenue collections is re-
garded as a more trustworthy meas-
ure of the cost of government to the
individual than disbursements. Re-
venue per capita measures the amount
of money actually paid into the gov-
ernment by citizens. Expenditures
per capita includes borrowing to be
paid by future citizens. Expenditures
per capita includes borrowing to be
paid by future citizens.

In suggesting to our State Depart-

ment that the Rush-Bagot agreement
between the United States and Can-
ada may be in need of extension and
modernization, Premier King of the
Dominion Government used words
which appeal to the just pride of citi-
zens on both sides of the long
boundary that divides the two coun-
tries. Said he:

At the recent conference on Dis-
armament no single aspect of inter-
national relations attracted more at-
tention than the unfortified frontier
of from three to four thousand miles
between the United States and Can-
ada. Over and over again reference
was made to the so-called Rush-Bagot
agreement of 1817, under which arm-
ament on the Great Lakes and the
St. Lawrence River was restricted to
four vessels of 100 tons burden, each
carrying not more than one eighteen-
pound gun.

Political questions have arisen

ODDS AND ENDS AND THINGS

By J. D. C.

The United States Government col-
lected \$38 in revenue for each resi-
dent of the country during the fiscal
year just ended, according to an offi-
cial statement of the Treasury De-
partment. Business men and consum-
ers supplied the money in taxes and
tariffs. This figure represents the
cost of government per capita in this
country.

The cost of government in other
principal countries follows:
England, \$95 per capita.
France, \$42.
Japan, \$13.
Italy, \$11.

The United States revenue totaled
\$4,109,104,000 in the fiscal year just
ended. In England the total \$4,330,
480,000 and in France, \$1,744,725,000.

Japan collected \$764,392,400 and
Italy \$456,334,000.

The population of the United States
is nearly twice as great as that of
Japan and well over double the popu-
lation of the British Isles, of France
and of Italy.

Business is heavily taxed in
France, Italy and England. The Brit-
ish normal income tax is more than
2 per cent, the American 4 per cent.

Five items suffice to describe all

THE RIGHT STAND, MR. MELLON

Whatever may be the sensations of chagrin that pursue Elmer Dove because of undenied rumors of his resignation as assistant secretary of the treasury, his loss will be the public's gain. Secretary Mellon's decision in support of Commissioner Blair of the internal revenue department seems to have completed two points in a situation that has been a source of irritation to the higher elements of the administration. One was that business principles and practice in the treasury department take precedence over political exigencies; the other was Mr. Dove's conclusion that under such circumstances the treasury is no place for him.

Commissioner Blair supplied all the resistance to Dove's program to dismiss a long list of appointees held over from former administrations because of experienced business ability, but in the final clash Secretary Mellon, flatly sided with Blair. The country endorses Commissioner Blair and Secretary Mellon for their stern defense of business practice by trained business men, especially in such a critically balanced business department as that of internal revenue.

REGULATING FLYING

One-half of the 1,200 commercial airplanes now in operation in the United States are operated by "gypsy" fliers, without a fixed base of operation and generally without means of assuring a reasonable degree of responsibility. Six hundred planes are controlled by 125 operators "with a fixed base and financial responsibility." Each class flew in the neighborhood of 8,000,000 miles and carried 125,000 passengers. There were 114 accidents, resulting in 49 deaths and the injury of 89 persons. Yet not one person was killed in a straight commercial flight by the more responsible group of flying men. The figures are for the twelve months ending last October 1st and are vouched for by the Aeronautical Chamber of Commerce, an organization earnest in advocacy of a bill to provide federal regulation of commercial flying.

A bill embodying the ideas of the aircraft producers was recently passed by the Senate and is now before the House. Spooner or later regulatory action is certain. In every other form of passenger carrying for hire the federal, state and local governments co-operate to enforce certain standards of safety and to insure financial responsibility adequate to safeguard the victim of an accident, or his family. Passenger flying is yet only a novelty, but promises at no distant date to become an established and important method of transportation. In the meantime persons who patronize commercial aviation encourage and hasten the flying age; and the patrons of the new era are entitled to assurance that operators comply with recognized standards of safety and responsibility.

DENVER AN EARLY BIRD

Today's outstanding example of forehandedness is Denver, which, inspired probably by reports that the rivalry will be unusually keen, has announced its intention of capturing the Republican national convention in 1924. At that, though, the "mile-high city" might have more success in going after the Democratic convention, which it had in 1908.

The Republican party of late years seems to have a preference for Chicago as a convention city. It met there in 1904, 1908, 1912, 1916 and 1920. Philadelphia had the convention in 1900. The party 20-year habit will be hard to break. The Democrats have been less constant. They have met at Denver, Baltimore, St. Louis, San Francisco and other places.

It is reported that Minneapolis and Kansas City, which have had the privilege of entertaining national conventions in the past, will enter the lists against Denver for the Republican gathering. They, also, possess adequate halls for the meeting, the first essential. Chicago, significantly, is not saying a word. Her record speaks for her. When it comes to facilities for taking care of big gatherings Chicago is in a class by herself. She can handle a national party convention without getting flustered and neglecting her regular business.

The theory no longer obtains that there is any political advantage in holding a convention in a certain city. The practical question concerns the general accessibility of the town and its ability to take care of the delegates and the thousands of visitors attracted by the event. Chicago wins on both counts. But there is no reason why Denver boosters should not try to seize her laurels.

TROUBLE INSURANCE

Don't congratulate yourself that you're fully protected until you've secured trouble insurance.

Like every other kind of insurance you must buy it when you don't need it or you can't get it at all.

Pay a fixed sum each month into your savings account as a premium on your trouble insurance.

Then no matter what happens you'll have the protection of ready money.

A slim-line tailored suit is one among a variety of styles most of which conflict with a slim-line purse.

One of the strangest things in this world is how eager a man is to smoke after his last match goes out.

The snappers have organized. No doubt their motto will be, "Remember, girls, he's somebody's brother."

Another nice thing about being a radio soloist is that you don't have to buy a new dress for the concert.

Red, green and blue sports shoes are said to be the thing and, of course, they will demand clothes to match.

The world is rather clearly divided into two parts—those who want big loans and those who can grant them.

The way of the transgressor in these days of motor cars and cement road ways has many thrills before the finish.

As a rule, you can depend upon the man or woman who does an honest day's work to do an honest night's sleep.

Germany and Russia have abolished tipping. And the marks and rubles worth so little even the waiters don't seem to care.

However if you have made plans for your vacation, it might be just as well not to wait for that predicted reduction in railway fares.

The one thing in the world that will make you feel friendly to a man practicing on a saxophone is to listen to another man arguing the tariff.

The movement for elevating the stage is a good thing. If successful we may be able to see over the heads of the girls with the puffed-out hair.

The citizen who finds his rake is missing always has two guesses between the one who lives next to him on the right and the one on the left.

If the movement to compel fishermen to confirm all their yarns is successful one more source of summer entertainment will be broken down.

"Men do admire the handsome girl," says a beauty writer. Aye there's the rub. And that's what keeps the divorce courts working overtime, too.

Lightning struck and felled a man who was walking along a road. It is entirely probable that the first thing he said after coming to was "Get his number."

Shoe manufacturers who "try to save certain women embarrassment by re-standardization of the size of shoes" may spare themselves the trouble. You cannot re-standardize feet.

Henry S. Jacobs, of Brooklyn, N. Y., is making a ten day home-coming to his parents, Rev. and Mrs. H. L. Jacobs, 113 S. Second street.

THE OLD HOME TOWN

By Stanley

LUTHERAN DAY AT LAKE MONT THURSDAY 27TH

The Lutherans of Central Pennsylvania will meet in their annual reunion at Lakemont park on July 27th. The event this season promises to surpass any preceding one. A program of unusual interest has been prepared for the occasion. The address at the morning session will be delivered by the Rev. Prof. Charles J. Smith, D. D., president of Roanoke College, Salem, Va. The orator of the afternoon will be the Rev. F. H. Knobel, D. D., LL. D., president of the United Lutheran church in America, New York City. The boys' band of the Loyeville Orphans' home will again be present to assist in the program throughout the day and give the concert of the evening.

The music of the program will be under the leadership of J. Calvin Lang, Jr., Esq., of Hollidaysburg. He has provided some very special vocal numbers for the morning and afternoon sessions.

Provision has been made that no one will need burden himself with baskets or be anxious about refreshments. The ladies of Temple Lutheran church have made themselves responsible for everything along this line. They are making great preparation to supply the needs at a very nominal cost.

ARGUMENT HEARD IN PULSI CASE

Judge Bell this morning heard the argument on the motion for a new trial in the case of Tony Pulci of DuBois, recently convicted of manslaughter for the killing of Charles Nolo at DuBois last January. Attorney's Gleason and Margiotti represented Pulci, while District Attorney Arnold looked after the interests of the Commonwealth.

Judge Bell reserved his decision for the present.

CURWENSVILLE

Mr. and Mrs. Bartley Warner and Mrs. Gray and Robert of Chicago and George Harriot of Pittsburgh, stayed here on Thursday and took dinner with Mr. and Mrs. F. P. Tate their home on George Street.

Saul Robinson, who has been playing with the Harrisburg baseball team is spending several days in Curwensville and Clearfield.

Guy Clark and family arrived home Saturday evening after spending one time at Atlantic City and Philadelphia.

Mrs. Abe Shapiro, Mrs. J. Fine, Margaret Shapiro, Esther Sable, Florence Perlman and Lottie Silver were Curwensville visitors from Clearfield Saturday.

Mr. Margaret Rhodes entertained one friends at her home on George Street on Monday evening.

C. F. Doughman of Grampian was topping in town yesterday.

Isaac Kantar is spending a few days at Altoona.

Rev. and Mrs. B. H. Conley and on Albert left yesterday for Tarentum, Pa., where they will visit their daughter and sister Mrs. C. W. Appleby. They will also visit in Ohio and Virginia.

Louie Albino of Pittsburgh is spending a few days in town.

WINBURNE

The Demonstration given by the pupils of the Daily Vacation Bible School Sunday evening in the Presbyterian church proved that a vast amount of work had been done during the past five weeks. Much credit is due the volunteer teachers: Rev. Thomas, Mrs. Thomas, Rev. E. L. Ritzman and Misses Hess, Wickman, Thomas and Hall. On Friday the school enjoyed an auto ride to Clearfield and a picnic to Lakeside Park.

Mr. and Mrs. Jack Dudley are unusually happy over the arrival of a fine baby girl July 13th, the first little one to bless their homes.

Practically all of our men have returned from the cities where they have been employed for a few weeks and are ready to "dig in" just as soon as the whistle blows.

Born to Mr. and Mrs. Guy Devine at their home here last Wednesday, a nice little daughter.

The Women's Missionary Society held a fine meeting with a record attendance Thursday evening at the

home of Mrs. Thomas Barr. The devotional and business meeting took place out of doors, after which the crowd moved into the house and were entertained by a delightful program and served with very choice refreshments. Mrs. Slinger and Mrs. Richard Gray assisted the hostess.

Dr. Storke has been very generous here in the last few days, he left a little son at the home of Steve Kisa, and a dear little girl to Mr. and Mrs. Tate, this making their eighth child.

Mr. and Mrs. A. O. Somerville and family motored from Patton, Monday spending the day at the R. H. Somerville home and leaving two children Betty and Allan Jr. to visit for a week with their small cousins.

A jolly crowd, numbering thirty women and children journeyed to Phillipsburg Thursday and spent the day in a very happy manner with their old time neighbor and friend Mrs. David Johnson who now resides on a farm near the burg.

Saturday afternoon a farewell party was tendered Miss Alice Lindmark, at her home in Lanser by twelve of her girl friends. The time was pleasantly spent in games and all did justice to the delicious picnic supper. Many regrets were expressed over the departure of Mr. and Mrs. Lindmark and family who will sail this week on the S. S. "Stockholm" for Cottenberg, Sweden.

Coal Mines To Open

(Continued from Page One)

House, said that "we have now reached a point, owing to the refusal of mine workers and a minority of your operators to accept the proposed arbitration, where the good offices of the government in seeking a voluntary adjustment of the dispute between operators and mine workers are without avail."

All Accept Principle

The statement said that coal operators "extended verbal and written reports to the President," all of them subscribing broadly to the proposal for arbitration.

A majority of the districts accepted the proposal unconditionally, it was stated, while a minority of the districts represented in the conference joined in subscribing to the general principle of arbitration and collective bargaining.

The President told the delegation he was disappointed in their lack of unanimity. A large majority of the operators, it was said, "pledged readiness to resume activities under the government proposal."

The President told the operators that "freedom of action on the part of the workmen and employers does not measure in importance with that of public welfare and national security."

Alfred M. Ogle, president of the National Coal Association and chairman of the general operators groups said the employers would accept the President's suggestions and that in each district they would attempt the opening of mines by such methods and means as seemed available. He predicted that some immediate production would result from Pennsylvania mines, but declared that more difficulties might be encountered in Illinois

and Indiana.

The White House statement which preceded a transcript of the President's remarks to the operators follows:

"At 5 o'clock this afternoon the coal operators made a verbal and written report to the President. All of them subscribed broadly to the proposals to arbitrate.

"The majority of the districts represented in the conference accepted the President's proposal unconditionally.

"A minority of the districts joined in the conference in subscribing to the general principles of arbitration and collective bargaining.

The communication taken to the White House by the delegation, after stating that the operators were in "entire accord" with the plan to establish a general tribunal to inquire into all affairs of the industry, urged that such plan be put into effect by the President.

Operators' Letter

In their letter to the President explaining their situation, the operators said:

"We have given most careful and thorough consideration to the proposal submitted by you on July 10, supplemented by your statement of July 15 and we are not only in entire accord with your plan to establish a general tribunal to inquire into all the facts in or industry and make recommendations for the solution of our fundamental problems, but we urge that such a plan be put into effect by you.

"We also wish to remind you that we already have proposed the broad principle of arbitration in our previous conferences with the officials of the administration and with the representatives of the miners. We still stand on that broad principle and are in entire accord with you in that respect.

"We did have in mind discussing with you certain recommendations as to the machinery to make an arbitration plan effective and to accomplish the result which the country and you yourself desire.

Answer by Districts

"In view of the contingencies that confront us and the varying conditions in the different coal producing districts of the country, our conference has decided to answer your proposal by districts, rather than as a whole; we attach hereto statements of the proposition taken by the several districts represented in the conference of operators as embodied at your request in Washington.

"All of the operators of your conference unite in supporting the principle of arbitration and collective bargaining and your high motives in calling us together.

"And finally, they say to you and to the American people, that each and everyone of them stands ready in this crisis to put his property and his own services at your disposal and command at any instance."

Why She is a "Pippin"

How and why the word "pippin" ever broke into the slang language is not known definitely, but the word is an Anglicized form of the medieval French word *pipin*, which means a seedling. When an apple lover of the Dark Ages produced a new variety he called it such-and-such a pipin. It is said that there is no apple stock that is more than 400 years old, though the statement would be hard to prove. A Yorkshire pipin must be very old, and a pearmain may have descended from the days of the Romans.

Something to Think About

By F. A. WALKER

FORWARD, BACKWARD

EVERYTHING in nature is moving toward a great purpose. There is no inactivity in the atoms or in the spheres; no turning backward, no indecision, but a constant movement in a forward direction, carrying us away from the yesterday to new beginnings and new days.

The winds, the tides, the planting of the earth in its prescribed orbit, the rising and the setting of the sun, the coming and the going of the seasons, the blooming and the falling of verdure and flowers, all bear evidence of progress, and eternal life.

Being a minute part of nature, performing your little role in the great scheme of creation, reciting your lines, do you ever pause to ask yourself whether you are moving forward or backward?

In spite of any thought you may entertain in the matter, you are going ahead or drifting behind. Just as surely as the roses bloom in summer and the snows blanket the ground in winter.

You are better equipped for your life-work today than you were yesterday, or less efficient.

Your mental and physical forces have "undergone" an imperceptible change and you have changed with them.

You are a trifle more dexterous in your work or slightly more clumsy.

In the last 24 hours you have not remained in a quiescent state, for the laws of motion have been silently at work, carrying you a step or two forward or backward, setting you down at the threshold of a new day a slightly changed being for better or worse, which you may or may not observe as you take hold of today's duties.

Before night, however, you may become conscious of a new-born power or a lack of it, and wonder what the transformation means.

Its significance is clear. You are going forward or backward, keeping in accord with the eternal motion of things of which you are a part.

If you would move forward, keep step with the men and women who are laboring and achieving in the great purpose, you must watch your every thought, impulse and act, and ask yourself at the beginning of each day whether you are pressing toward victory or turning toward defeat.

"Forward or backward?" ought to be your initial question at dawn, and your final query at night. Let this self-examination become a habit, and in a little while you will be glad that you acquired it.

Mother's Cook Book

"A house is never perfectly furnished for enjoyment unless there is a child rising three years old and a kitten playing three weeks."

MORE GOOD THINGS

A STALE bread will accumulate, a little care is needed to keep ahead of the growth. If dry bread is put through the meat chopper it may then be used for croutons, meat balls and any number of dishes. Keep the crumbs in a glass jar, sealed from the air.

Tip-Top Omelet

Boil one-half cupful of milk, add one tablespoonful of butter and one cupful of bread crumbs, seasoning to taste. Beat the yolks of three eggs and add them, then stir in the stiffly beaten whites. Pour into a buttered omelet pan and cook until well browned.

Ham Patties

Take two cupfuls of ham chopped fine, three cupfuls of bread crumbs, three eggs and enough sweet milk to make a soft batter. Mix well, drop into gem pans, drop a piece of butter in each and bake until brown.

Brown Bread

Take two cupfuls of stale bread crumbs, one and one-half pints of cold water, mix and soak over night, then rub through a sieve one and one-fourth cupfuls of molasses, one and one-half cupfuls each of graham flour, cornmeal and rye meal, two teaspoonfuls of salt, three and one-half teaspoonfuls of soda and one and three-fourths cupfuls of cold water. Mix well and steam three hours.

Stuffed Apples for Tea

Take fine large apples, core and fill with one-half cupful each of bread crumbs and chopped roast beef, one tablespoonful of melted butter, one teaspoonful of onion juice, one-quarter teaspoonful of celery salt, half teaspoonful of salt, one tablespoonful of parsley chopped and a dash of red pepper. Mix well and press into the apples. Bake in a little hot water from half to three-quarters of an hour.

Fruit Betty

Put a layer of crumbs in a well buttered baking dish, cover with blueberries, canned or fresh, then add another layer of bread with a bit of butter and sugar if needed. Bake until well heated through. Serve with cream and sugar.

COUNCIL INSISTS

Continued from Page One

me, on Elmwood avenue.

Charles T. Kurtz, representing the Clearfield Park Association, was present and asked that the property owners be required to build sidewalks on Park street from Nichols street to the Park. Accordingly notices to build walks were ordered served on the following property owners on this street: C. E. Fisher, J. S. Chaplin, F. H. Thompson, Earl Gearhart, Freeman Smith, William McBride and Paul Ferguson. Mr. Kurtz stated that sidewalks were needed on this street as a safeguard to patrons of the park.

Increase of Debt Ordinance Passed
Borough Solicitor Urey presented an Ordinance providing for an increase of debt to the amount of \$6000 for the purpose of purchasing a hose and chemical wagon for Elk Hose Company. When this Ordinance came up, Harry Carlson, representing the Elk Hose Company arose and reiterated the statement made at last meeting that the Elk Hose Company would accept a hose and chemical wagon if purchased for him. President of Council Rosser stated that Council voted to purchase a hose and chemical wagon for Elk Hose Co., at the request of the Fire Department that after that request he burden to purchase such machine was upon the Council, they had carried out the request of the Fire Department and if, after purchase, the company refused to use the apparatus, the burden would be upon the company. The Ordinance was then passed, the three members of Council from Fourth Ward voting No. A motion was then made directing the President and Secretary of Council to contract for a hose and chemical wagon and this was passed with the three East End Councilmen voting in the negative.

Lower Witmer Park
Captain L. E. Watson of the Salvation Army appeared before Council and asked for permission to place a tent in lower Witmer Park for the holding of special services during the summer months and same was granted. The Army will move from its barracks in the Clearfield Progress buildings until the snow flies in the fall.

Want to Install Gas Tank
Thorton Hile, of the Orett Garage was present and asked permission of Council to install a gasoline tank between their garage and the McLaughlin barber shop on Third street with a pump at the curb. The request was referred to the Highway Department.

Want Traffic Laws Enforced
The almost unanimous disregard and violation of the traffic laws of both State and borough was the subject of general complaint by about every member of Council present and

SPENT HALF HER TIME IN BED

Farmer's Wife Tells How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman

Carter's Creek, Tenn. "Three years ago I was almost an invalid. I spent half of my time in bed, being afflicted with a trouble which women of a certain age are apt to have. I took Lydia E. Pinkham's Vegetable Compound Tablets and used Lydia E. Pinkham's Sanative Wash. I am a well woman now and have been for two years. I can work as well as any one who is younger and as I am a farmer's wife I have plenty to do for I cultivate my own garden, raise many chickens and do my own housework. You may publish this letter as I am ready to do anything to help other women as I have been so well and happy since my troubles are past."—Mrs. E. T. GALLOWAY, Carter's Creek, Tenn.

Most women find plenty to do. If they are upset with some female ailment and troubled with such symptoms as Mrs. Galloway had, the smallest duty seems a mountain.

If you find it hard to keep up, if you are nervous and irritable, without ambition and out of sorts generally, give the Vegetable Compound a fair trial. We believe it will help you greatly, for it has helped others.

The Grill Is Cool

There may be cooler places in this city than the Grill but we haven't heard of them yet. The natural coolness of being underground is further augmented by breezes made by fans that purr away the day through and make the Grill cool enough to enjoy the good things we have to eat and drink.

VIRGINIA CHOCOLATE SHOP

All P. R. R. Trains Stop Here Come in and Wait.

Burgess Kittelberger was asked to strictly enforce the motor traffic laws. The Burgess stated that he would comply with the request of Council, that during his six months in office he had tried to give automobile drivers a chance, thinking they would respect the law after his doing so, but he found they wouldn't do it, and when he gave them an inch they promptly hauled off a yard and then some, and that the women were as bad, if not worse than the men. He said he had instituted a new policy and hereafter every person brought before him for violation of the traffic laws would be fined.

Third Street Parking and Speeding Condemned

The complaint of the Pennsylvania Railroad Company relative to the careless parking of automobiles on West Side of Third street, which necessitated the stopping of train many times was called to the attention of Council and some talk of forbidding parking on this street was heard. President Rosser said he didn't believe it would be fair to penalize the ninety and nine accustomed to parking there properly on account of the one who disobeyed the law and it was decided to paint a guide line on the

paving and arrest and fine every driver who allowed his car to protrude over that line. The damphool speeder also "got his" and a lot of fellows are going to be called upon to settle for making a race course of our streets if they don't change their tactics.

Police Officers Regularly Elected
Chairman Beahan of Police Committee announced that the Committee had selected Roy McMullen for Chief of Police and Ernest Woolridge for patrolman and recommended that they be elected to these positions at the salaries provided for in the Ordinance. The recommendation was unanimously adopted.

Shade Trees Interfere With Street Lights

The Penn Public Service Company made complaint regarding interference with street lights in many sections of town by growing shade trees and the matter was turned over to the Shade Tree Commission for investigation and action.

JULY BRINGS ITS

SHARE OF BIRTH DAY GIFTS TO BUY

Lots of folks picked July as their birth month, and these folks naturally expect something as a reminder of each passing birthday. They don't want a really expensive gift—just some little thing that reminds them of you.

And you should see the really fine array of things of this sort that awaits your coming here. There's gifts for men, gifts for women, gifts for the flapper and gifts for the kiddies. And they're all priced so that you can afford them.

FINE BALL GAME IS ASSURED THURSDAY JAPANESE COOK SERIOUSLY STABS SOCIETY WOMAN

Manager Bell will put the strongest line up of the season on the field in Thursday's game against Ira Plank's Huntingdon Speedsters. He has secured a new battery of top-notchers in pitcher Rich, of Punxsutawney, and Catcher Nogle of the Johnstown Independents. Peterson formerly of Grassflat, is now a resident of Clearfield, and will also be in the game, while Billy Fauver, the local star who has been playing at Jersey Shore will cover third in his usual faultless style. This game will be well worth seeing and the fans should appreciate Manager Bell's and the American Legion's efforts to give us good baseball by turning out to this game.

Sneezing Once Presaged Death.
In the ancient world sneezing was the subject of much superstition, and was almost always endowed with sinister import. Jewish folklore has it that in the first ages of the world sneezing was always a presage of death until the coming of Jacob. That astute patriarch, anxious lest he himself should perish from such an insignificant cause, besought the Almighty to endow sneezing with more beneficent attributes, and since then it has been lucky to sneeze between noon and midnight.

Gossip For Tonight's Tea Table

E. K. Merrifield of Pittsburgh, motored up Sunday and visited his wife, Mrs. E. K. Merrifield, who is visiting here. He was accompanied by William Cotton of Pittsburgh.
Born, to Mr. and Mrs. George S. Jones at their home on Nichols street, Thursday, July 13th a son.
Mr. and Mrs. Harry R. Bowman and two children and Mrs. Ida S. Townsend motored here from Williamsport to visit the latter's parents Mr. and Mrs. James Sutton, of Locust street.
Born, to Mr. and Mrs. J. E. McCarthy, of Lock Haven, a daughter at that place on the 17th.
Mrs. B. C. Titus of DuBois is the guest of Mrs. Lola Merry on Weaver street.
B. C. Titus, of DuBois is a surgical patient in the Clearfield hospital.
Misses Sara Brodbeck, Mildred and Rae Eckley motored to State College Sunday to spend the day with student friends.
Born, to Mr. and Mrs. Peter Duckett on Sunday at 8 p. m., an 8 lb baby girl.
Eleanor Forsyth is suffering from a broken arm received in a recent fall.
Ellery O. Hartshorne, of Cleveland, Ohio was a Clearfield visitor for a few hours this morning.
Mr. and Mrs. B. F. Shirey and son arrived home last evening after a delightful six weeks visit with relatives and friends in California.
Mr. and Mrs. Frank Caldwell visited friends in Bellefonte Sunday.

MURDERERS OF DR. RATHENAU SUICIDE

Berlin, Germany, July 17.—Fischer and Kerin, the assassins of Dr. Walter Rathenau Foreign Minister, committed suicide today, as the police were about to arrest them. The two fugitives had barricaded themselves in a tower. Vollev after vollev was fired by the police at the tower and he police heard the men shout "you win." This was followed by two shots within the stronghold. Kerin and Fischer were dead when the police entered the tower.

Sad Reunion

Leah Silver and Ruth, her 16-month-old babe who was abandoned in a swamp near Coney Island. The mother, under arrest, was taken to the hospital to which the child was sent by New York police after mosquitoes had attacked it.

Mr. and Mrs. F. C. Shillenn and Mr. and Mrs. Elmer Graham motored over to Clayburg Sunday and spent the day with Mr. and Mrs. F. S. Dunlap.

METHODIST DAY EVENTS
Thursday, July 20, Methodist Day will be held in Lakemont Park, Altoona, with a very full program Dr. W. L. McDowell, connected with the Board of Home Missions and Church Extension, preaches in the morning. The afternoon platform addresses will be delivered by a number of Church leaders, whose names have not been given out in order to awaken interest. The popular night meeting is given to Dr. Morris E. Swartz, Centenary Secretary of the Washington area, who has his own attractive program. Special rates have been offered by the Pennsylvania road to Altoona and return. Inquiry at any railroad ticket office for both rates and duration of ticket.

WAR TORTURED STOMACH FREED FROM MISERY

Wounded Overseas Man Gets Great Relief with Jacques' Wonder Capsules
"For three years and five months of the World War I wore the khaki of an infantryman. Through the hell of Ypres, St. Etienne, Arras, the Somme, Amiens and Passchendaele, we trudged through the mire. The mud and the slush and the constant shelling took their toll of the men's morale, but even worse than this were the cold rations, or none.
"I suffered from stomach trouble as others did, without aid, until wounded at St. Etienne, in the spring of 1918; then came the Red Cross hospital in England. A doctor there called me back into the shell swept areas of Belgium, broken in constitution, but able to carry a rifle. Gradually starving, yet carrying on, as others did, down to a weight of about 110 pounds, until one day an enemy shell got me again—Brighton, England, for me.
"Days in the hospital. Then before a medical board, ordered back to Canada, and there discharged, medically unfit. During all these months of careful medical treatment every effort was made to restore my appetite and train my stomach to digest food, but without success.
"I returned to my home in Syracuse, N. Y., shattered in health, altogether despondent. In 1919 my wife took me to Plattsburg, N. Y., where I became acquainted with Jacques' Little Wonder Capsules. I took the capsules and I am today free from the constant misery in my stomach.
"Through my love of the old uniform I do not feel that I can have my name published, but if anyone interested will drop a line to the Jacques Capsule Co., Plattsburg, N. Y., they will be given my name and address."
On sale at Woodward & McPherson, Clearfield, Pa., or 60 cents by mail postpaid for large package from Jacques Capsule Co., Plattsburg, N. Y.

THAT CURIOUS DEVICE FOR MAKING FIRE

It was only seventy-five-years ago that a woman of the Middle West wrote to her cousin in New York:
"Last winter I was told of a curious new device for making fire. It consisted of small splinters of wood with tips of some substance that bursts into flame when rubbed on a rough surface. If you can procure some of them for me I shall be grateful."

Matches were in general use in Europe for years before they were seen in this country. There was no means for spreading such news rapidly.
Today, the new invention that contributes to comfort or convenience is quickly known the country over. Advertising conveys the information. The farmer's wife in Texas or Idaho is as well posted on these things as the city woman of the East.

Don't overlook the advertisements in these columns. They are heralds of progress, with real news for you and your family. They save you time, lighten your work and enable you to obtain the utmost in value for the money you spend.

TIME GIVEN TO READING THE ADVERTISEMENTS IS WELL SPENT

The Stanfield At the Office

RIMLESS Spectacles, accurate in service, correct in appearance are the logical eye glasses for business executives and professional men.

Standard Rimless Glasses

of this type, permit more work with less fatigue as the mountings hold the lenses prescribed in the scientifically correct position. In addition they are comfortable to wear and are dignified and inconspicuous.

PESKY BED-BUGS P. D. Q.

Try just once P. D. Q. Pesky Devils. Quicker as a proverb or to rid Bugs, Roaches, Flies and Ants. Every family should use P. D. Q. It is a cleaning time to get rid of the Pesky Devils and to prevent moths - P. D. Q. is not an insect powder, but is a new chemical that kills insects and their eggs. Each package contains free a patent sprout to enable you to get to the hard-to-get-at places and saves the juice.

A 35 cent package makes one quart, enough to kill a million insects and their eggs.

P. D. Q. can also be purchased in seal-tight bottles, double strength, liquid form.

Sold by Woodward & McPherson and all leading druggists.
